Re: MUR 5614
STEVEN REIFMAN FOR CONGRESS
Complaint by CompleteCampaigns.com

Dear General Counsel's Office

We are writing in response to your letter dated November 18, 2004 in regard to the above referenced complaint from CompleteCampaigns.com. The reason that this alleged debt is not included in the various FEC Filings is that the campaign does not consider it to be a valid debt. Our records indicate a payment of \$300 and a termination of service. Further we question the service provided as being adequate. The "contract" was entered into and the service was used for less then one month at which time Steve Reifman won the primary on August 3, 2004 becoming the Democratic nominee so that the campaign then used a similar service provided by the Michigan State Democratic Party. Succinctly, we do not and did not consider this to be a debt of Steven Reifman for Congress and accordingly did not include it on the reporting. We are modifying our filings to include this disputed debt on the FEC filing forms. We would be glad to deal with the claim of CompleteCampaigns.com in a court of law, to determine its legitimacy.

It seems a shame that a company like this, which has a disputed claim, can try to use the FEC to collect its debts. We were not aware of the procedure required. If the debt is found to be valid then Steven Reifman for Congress will pay the debt. In the meantime we will modify its reports to reflect same.

Thank you

Steve Reifman
For Steven Reifman for Congress
