JLP US Passport - signed.pdf

Hi Kim

I received in the mail today a letter from the FEC in relation to MUR 6931. While I am not an attorney and reserve the right to appoint one if necessary, if I understand correctly, the complaint seems to be about campaign contributions from non-US citizens, correct? As you can see from the attached copy of my US passport, I am a US citizen and always have been so presumably this complaint is without substance in relation to me.

Please let me know if you need anything further for me and, if not, please confirm that this matter is closed as far as I am concerned.

Please also note my correct address below.

Best regards

John
