II. PREDICTORS -- WHAT COULD ADD TO LEAD OR DETRACT FROM IT

Event	Margin
Rep convention attacks Clinton character, Whitewater	+31
Gingrich and Buchanan speak at Convention	+26
No further Whitewater indictments	+25
Agree on Balanced Budget with tax cut	+24
Kennedy Kassenbaum passes	+21
Perot runs	+17

Minimum wage passes	+17
CURRENT HEAD TO HEAD	+16
Welfare reform passes	+15
Dole VP is Governor of Mich or Ohio	+12
Whitman runs as VP	+9
Whitewater indictments of high ranking official	+6
Dole economic plan with large tax cut	+2
Clinton vetoes welfare reform	-3
Powell as VP	-3
Moderate Republican convention, Family values, tax cut	-6

Key points:

1. Welfare veto would be a disaster
2. Republicans can gain heavily by a good convention: positive, family, tax cut
3. Passage of budget deal, Kennedy Kassenbaum can expand lead
4. If Republican Convention can be made negative, attacking in media's eye, it will help us

III. WELFARE

A. Wisconsin - strong support for waiver

1. support waiver by 78-11
2. approval of waiver would make voters more likely to vote for Clinton

More likely Clinton -- 53

More likely Dole -- 29

3. But, when told that Clinton might not approve waiver because plan is too harsh on mothers and children, Dole jumps up

More likely Clinton -- 47

More likely Dole -- 39

B. Welfare Reform Legislation

1. Support Clinton for signing Welfare bill with time limits, work and cutoff to legal immigrants

more likely Clinton -- 67

more likely Dole -- 24

2. But, if Clinton vetoes welfare reform, Dole surges

more likely Clinton -- 40

more likely Dole -- 47

3. Veto would collapse horse race collapses to 50-40 lead

4. Clinton veto argument that 1.5 million children in poverty doesn't work

more likely Clinton -- 40

more likely Dole -- 47

5. A Clinton veto would leave us open to devastating Republican argumentation that we would have vetoed welfare 3 times and were not serious about reforming welfare

more likely Clinton -- 42

more likely Dole -- 49

6. After sequence, with veto, race collapses to 48-41 -- a veto costs us 8 points

IV. DOLE ECONOMIC PLAN

A. Dole economic program would help him a lot

B. In predictor scale, above, it changes horse race into only a 2 point lead

C. Dole statement on economy works well:

Economy not growing fast enough. Can do better. Get moving again
Broad tax cut, spending cut, deregulation. Cut income taxes 15%
Cut capital gains in half. Cut four govt depts. Cut spending. Dereg
Cut paperwork. Growth machine again

More likely Dole: 52

Less likely Dole: 44

Head to head falls to +11 (drop of 5)

1. Could be very effective statement

D. Rebuttals:

1. Best rebuttal: Attack Dole eco record; praise Clinton's record on economy

Dole has no economic record. Cut unemploy benefits.
Clinton sold more cars than Japan, lower interest, 10 mil jobs
Need more growth by tax cuts on college, raising children, IRAs

More likely Clinton: 64

Less Likely Clinton: 33

Head to head grows to +22

a. We propose to put this ad on now

2. Second best: Clinton record -- stay the course

Cut deficit in half, 10 million jobs, cut unemploy, cut spending,
foreign markets fr products, lower interest rates, better ed. Need
more of same, not radical tax cut. We're doing fine, growing steadily

More likely Clinton: 61

Less likely Clinton: 36

Head to head grows to +22

3. Third best: Deficit would soar with tax cut

We're cutting deficit in half. On track to balance budget. Dole
plan will swell deficits like in 80s. Cripple economy, raise interest rates
trigger recession

More Likely Clinton: 57

Less likely Clinton: 39

Head to head grows +20

4. Fourth best: Targeted Tax Cuts vs Across the Board cuts

Wrong way to cut taxes. Not across the board, but targeted
at college tuition, raise children, investments for welfare jobs,
IRAs for education, medical care

More likely Clinton: 62

Less likely Clinton: 37

Head to head +12

5. Wrong ways:

Giveaway to rich More likely: 52-47

Cut Medicare etc: More likely: 56-41

E. Defeat tax cuts with targeted tax cut: 63-29

F. "Fairer, flatter tax system doesn't work well

More likely Dole: 50

Less likely Dole: 45

1. By flatter tax, Dole means cut tax brackets from 4 to 2: 47-45

2. Supporters of flatter -- cuts taxes, simplify -- 37%

vs.

Opponents: rich pay more is fairer -- 55%

3. Dole proposes repeal of millionaires surtax of 40% rate on incomes
Over \$250,000 a year and cut to 36%

Less likely: 32-62

G. His best bet is to do tax cut/energize economy. Much better than fairer, flatter

1. Our best counters are: Clinton record, Dole record, deficits, targeted tax cuts

2. Our worst counters are: cut in Medicare, etc and pro rich

VII. HANDLING DOLE MOVE TO THE CENTER -- HIT HIM WITH GINGRICH

- A. People feel Dole's positions on "abortion, gun control, Medicare, education and environment are" too extreme

Fit in with most Americans:	39%
Too extreme	49

- B. People feel Dole's move to tolerate all views on abortion, not push for assault rifle repeal, moderate on Medicare, education, environment is saying things he doesn't intend to do

Sincere	38
Saying things he doesn't intend to do	54

- C. With Gingrich running Congress, Dole's "taking more moderate positions now is irrelevant because Gingrich will push through extreme legislation and Dole will never veto it"

Agree	61
Disagree	33

VIII. GUN CONTROL

- A. Extension of Ban on handguns to domestic violence misdemeanors -- wildly popular

1. People back extension of Brady bill ban on gun ownership to "people convicted of Misdemeanor offenses under the domestic violence law."

77-19 (66% strong)

2. Still support after argument that "just another step down the slippery slope of gun control that won't end until all guns face tight controls"

Ban will save lives	63
Slippery slope of gun control	32

B. Assault Rifle flip flop by Dole -- unpopular

1. Statement by Dole "time to put repeal of ban behind us, no longer an important legislative priority for me"

More likely: 30

Less likely: 61

Head to head: +19

2. Statement by Clinton: House voted for repeal of ban. Doesn't matter if priority, Opponent won't say if veto. I would veto repeal

More likely Clinton: 59

More likely Dole: 35

C. Instant background checks unpopular compared to waiting period

1. Dole quote: "I want instant background checks, no felony or mental illness buy guns"

More likely: 52-42

2. Clinton quote: "even people without felony records or mental illness should should not be allowed to buy handguns without 5 day wait imposed by Brady Bill. Heat of passion."

More likely: 68-28

3. Head to head: 57-38

D. Trigger lock -- good public backing

1. Approve of require gun purchasers to buy trigger lock to stop child firing

71-24

2. If Clinton got voluntary agreement from gun manufacturers to send trigger locks to all gun stores for distribution:

More likely Clinton: 68-24

3. If Clinton suggested a law making it a crime to store a gun in such a way that a child was injured

More likely: 68-33

4. If Clinton issued executive order requiring fedl employees to store firearms safely and use trigger locks

More likely: 63-27

- C. Make it a crime to intimidate govt officials 80-18
- D. More FBI power to investigate militia 60-34
- E. Government list of organizations that encourage terror 75-18

X. CONVENTION

- A. Urge approval of train trip
- B. Urge outreach to Cronkite and Reeve as possible convention speakers
 - 1. Cronkite gets 42% more likely, highest of anyone tested
 - 2. Reeve gets 39% more likely, very high
- C. Urge Evan Bayh as keynoter

D. Urge Ann Richards to speak after Bayh with "negative" keynote

Gets 38% more likely rating

E. Urge Dennis Archer as Nominator

F. Urge Sarah Brady as Seconder

38% more likely

G. Urge use of nonpolitical speakers:

Kenneth and Rosemarie Weaver (family leave)	46
Lillie Harden (ex-welfare mother, now working)	43
Captain Josephas Rozier (American soldier in Bosn)	37
Zlata Filipovic (Bosnian woman refugee)	37
Velaida Shepard (Americorps--at risk children)	34
Steven Sposato(wife killed in SF law office massacre)	32
Rebecca & Craig Cummins fedl loan became doctor	30
Richard Dean (rescued people in Okla city)	27
Catherine Hamill (9 year old, Dad killed in Belfast)	27
Magic Johnson on AIDS	23
Dimitrio Theofanis(imgmnt, kitchn wrker, jobs,crme)	21

1. 5 Minute fillers

2. Roll call outtakes

H. We are considering other speakers and will poll them

XI. HANDLING DOLE'S EDUCATION MOVES -- FOCUS ON TEACHER UNION ATTACK, NOT ON VOUCHERS

A. Support for "vouchers for public, private, or parochial schools

57-35 (among catholics, voucher support was 76-18)

B. But opposition to Dole blames "failing public schools" on "military teachers unions"

36-58

C. Not moved by attack on "global awareness and diversity" and backing for
"Teaching basics"

46-49

D. Conclusion: We are highly vulnerable on the voucher issue ---

--- switch defense to defending teachers and unions

--we'll poll more for a better answer next week

XII. FALL SCHEDULE FOR PRESIDENT

A. Need lots of Washington time for strategy, thinking, ad approval, etc

1. Need not to be on road all the time

B. Travel spending is the biggest single factor in reducing TV ad spending

1. If we use \$25 million of \$62 million for travel, it will be impossible
to allocate \$35 million to ads

C. Not sure fund raising travel is worth it.

1. Ironically, in the fall, the more fund raising we do, the less money we will
have for TV

a. Fund raisers cost us potential TV money in travel

b. And, except for 441, fund raisers have nothing to do with TV time

2. Fund raising is now for much more marginal objectives

D. Political travel is usually not nearly as important as comparable amount spent in
media

1. Penn will do detailed analysis of where travel makes sense

XIII. PUBLIC HOUSING

A. Support work requirements for entry to public housing -- 66-29

1. But, after argumentation, support fades somewhat

- a. Argumentation: encourage work vs. wrong to deny housing
-- 53-40**

2. Recommendation: move ahead with idea

B. Ban guns in public housing

1. Initial support for idea -- 64-31

- 2. But, support collapses in the face of argument that legal guns should not
be banned 46-49**

C. Public supports waiving income restriction for absent fathers who return to public housing to live with their family, even if this puts them above income limit -- 63-30

D. Summary of ideas on public housing:

- 1. Waiving income limit for returning fathers enjoys strong support**
- 2. Work requirement for admission to public housing enjoys support
which remains, at lower level, after argumentation -- nevertheless
recommend its use**
- 3. Banning guns from public housing does not work and recommend we
do not use it**

XIV. NEW IDEAS

A. Parents Right to Know Law -- good support

- 1. Back bill -- make manufacturers of household products, toys, house paint and
other things children are exposed to disclose harmful effects of products
on kids**

65-26

B. Rock Lyrics

1. Public would support President urging restraint by record companies on violent or promiscuous rock lyrics

63-34

C. TV family hour

1. Public supports President urging network to implement voluntarily a family hour of TV between 8 and 9 pm -- 72-23
2. Initially tested mandatory requirement but support caves with argumentation
 - a. Initially support of mandatory requirements -- 67-29
 - b. Argumentation about censorship collapses numbers to -- 53-42
3. Recommendation: move vigorously on it as voluntary proposal

XV. MISCELLANEOUS

A. Tobacco

1. Public supports FDA ban on ads aimed at children vs. Dole position of let states do it themselves -- 65-28

B. No Sweat Labels -- Can extend warranty to store owners

1. Back no sweat labels by 80-16
2. Agree with making no sweat label as defense if store is cited for child labor or sweat shops--proof that they're working on it 49-40

C. Whitewater -- believe special prosecutor politicized

1. Investigations politicized, detract from investigations of Medicare fraud, Drug trafficking --55

vs

proper thorough investigation --33

2. Whitewater selective prosecution, going after Clinton friends on petty offenses while overlooking Republican offenses -- 48

vs.

Just and serious investigation -- 40

D. Legalize Marijuana for Medical Purposes

vs

Few studies show medical use, first step toward legal pot -- 37

3. Recommendation: Don't touch the issue, but it will do us no great harm

E. Prayer in Schools -- starts as good Dole issue, but nullified by const allows ind. prayer

1. Back constitutional amendment on prayer by: 69-27 (47 strong support)
2. Dole backs amendment, decay in morals, values to children -- 40%

vs

Clinton opposes, unnecessary, constitution already allows individual prayer -- 59

3. Dole says amendment preserve strengthen private worship -- 35%

vs

Clinton says constitution protects religious freedom, separate church
and state -- 59%

AGENDA FOR MEETING ON AUGUST 20, 1996

I. TRACKING -- POST CONVENTION SLIPPAGE TO 11 PT LEAD IN 3 WAY

A. 3 way head to head: 43-32-14

1. Pre-convention was 48-31-12

a. Perot absorbed all but one point of Dole rise

b. Dole had shrunken 3 way to 43-35-11 on Friday poll, but Perot's rise over the weekend took 3 pts away from him to open up current result

B. 2 way race in post convention is at 47-39 (8 pts, up from 7 on Friday)

C. Dole's favorability has risen dramatically -- from 47 to 59

1. now is 59-38 (was 47-46 before convention)

2. Clinton favorability is 60 -- only 1 pt higher

3. Kemp favorability at 56 (Gore at 58)

4. Hillary at 50 (Eliz Dole at 60)

D. Clinton ratings virtually unchanged -- negatives had little impact

1. Job rating at 59 (from 62 pre convention)

2. Favorable at 60 (from 58 pre convention)

3. Re-elect at 48 (from 50 pre convention)

E. Perot favorability up to 37 from 33

1. each extra point puts that many Dole voters into plan

2. Perot has now become Dole's opponent in the primaries

a. He must fight a three front war: neg on Clinton
pos on Dole
neg on Perot

1. before he just had to do neg on Clinton

2. he will have a hard time selling his positives as he did
in his primary period

b. Perot now represents the old Dole (bal budg) vs. the new Dole
(supply sider)

F. Republicans have moved right track numbers back down again

right/wrong track

Aug 5	44/43	+1
Aug 11	46/44	+2
Aug 12	44/44	--
Aug 13	43/45	-2
Aug 14	41/48	-7
Aug 15	41/48	-7
Aug 16	40/47	-7
Aug 19	41/48	-7

G. Dem over Repub Congressional lead at 46-40 (from 43-40 pre convention)

H. Issue Comparison -- Drops on all issues but still ahead in most issues

1. Dole has not succeeded in pushing Clinton to the left and scores
only moderate gains on conservative issue (except for crime
where his gains are appreciable)
2. But Dole has succeeded in moving himself to the center and scores
big gains in all moderate-left issues
3. Based on poor gains on taxes and economy, Dole's plan is not punching
through. But his maintenance of good numbers on balancing the
budget suggests that neither is our rebuttal

4. Conservative issues

Very little movement, except for crime, due to ineffectiveness of anti-Clinton negatives and anchoring of Clinton moderate image

	Current		Pre-Conven		Slippage
	Cl	D	Cl	D	
Welfare	49	42	52	40	-5
Taxes	46	46	44	45	-1
Bal Budget	43	39	45	42	-1
Crime	52	38	44	46	-16
Defense/Military	45	45	38	53	-15

(need to repair crime issue; but limited slippage on taxes shows his plan isn't doing well. We need to make bal budg point harder)

5. Non-Conservative Issues

big gains for Dole due to improvements in the moderate view of the Party and the personal sensitivity and compassion of Dole as projected by Elizabeth

Economy	52	41	51	42	-2
For Pol	51	38	48	43	-8
Health Care	61	29	55	37	-14
Education	61	30	55	37	-13
Medicare	48	28	51	38	-7
Medicaid	60	28	50	38	-20
Environment	67	23	61	26	-9
Terrorism	45	36	43	43	-9

(greater slippage in left issues than in right ones.
Dole had more success selling a moderate image than he had
in showing Clinton as a liberal)

I. Adjective Comparison -- Surprisingly little change

1. Despite huge changes in Dole favorability, there is ironically, little
change in the numbers on the adjectives we tested

	Current		Pre-Conven		Change
Effective	42	46	47	42	+9
On my side	49	42	49	38	+4
Balance the Budget	45	35	46	35	+1
Vision for future	48	37	50	38	+1
Flip flops	59	29	56	27	+1
Does it even if unpop	45	41	45	40	+1
strong leader	47	44	47	44	0
in touch with my valu	47	42	48	44	-1
peacemaker	59	24	59	27	-3
Clear stands on issues	43	42	39	44	-6

no comparisons

Honest and forthright	34	48
Offers new ideas	55	31

the lack of movement shows the relative frailty of Dole's higher
favorability.

J. Negative Campaigning

1. Dole's negative campaigning rating rose, but not by much and with no real effect
 - a. voters seem to react negatively to attacks; disbelieve them; but don't really hold it against the attacker. It's just business as usual
 - b. Dole's pos/neg campaign rating dropped from 25-54 to 33-60
 - c. Clinton's pos/neg campaign rating also dropped from 55-28 to 41-50

II. SUMMARY OF IMPACT OF REPUB/PEROT CONVENTIONS

A. Republicans achieved most of their objectives

1. Kemp is seen favorably 57-25
2. Convention was viewed favorably: 51-38
3. Convention was seen as moderate: 41 conservative: 41
(about the same as electorate's self-description)
4. Convention was seen as Reaching out to independents vs. partisan
reached for independents: 52
partisan 31
5. Convention was seen as positive: 42 negative: 40
6. Dole emerged as having a clear vision for future 49-38
7. Dole's favorability rose from 47 to 59
8. Voters switched from a right track +2 to a wrong track -7 on state of the nation
9. Dole's economic plan rose from 54% approval to 60% approval
10. But, people did not feel Dole explained how pay for tax cuts by 12-51

B. Demographics of Republican Voter Gain:

1. Gender:

male: -8
women -12

2. Age

3. Key Clinton losses/Dole gains

Women, 50 and over -24
Weak Republicans -22
Independents -13
Married -9
Elderly, total -8

C. Impact of Bob Dole Speech

1. 48% heard it

a. more likely to vote for Dole: 26-14

b. Backward looking 34
Forward looking 37

c. Painted a clear vision of his future actions: 49-37

2. Creative nostalgia

a. Appealed to Dole base and Swing II successfully

b. Good job on taxes, less govt, immigration, crime, trade

c. character based on war record

d. school choice

e. America paralyzed by problems

✓

3. Flaw:

a. few specific issues

b. Little in the way of positive ideas -- other than plan -- to help regular people

D. But, Perot emerges as Dole's chief competitor for an expanded vote share

1. Perot is the candidate who now faces Dole in the primaries

2. Perot embraces the old Dole message vs. the new Dole message

3. We need to be sure Perot is in all debates (contrary to Fowler statement)

4. 17% heard Perot's speech

E. And, Clinton ratings are largely unaffected. Negatives didn't work

F. Key defect of their convention was that it was about them, not about the people

1. Each speech was about redefining Dole and the Party; not about what relevance each had to the people

2. Tax cut was only proposal. And its a slender reed for the future

III. DOLE TAX CUT PLAN AND HOW TO ANSWER IT

A. Tax issue really hasn't helped Dole yet:

1. Who Trust on Taxes Clinton vs. Dole

	Aug 11	Aug 19
Clinton	46	44
Dole	46	45

2. Of those (46%) who have heard of Dole plan more likely to vote for Clinton by 40-32 (about the same as our two way margin)

B. But the tax plan could still be a big win for Dole ,

1. Support for his plan has grown during the convention

TO: THE PRESIDENT

Re: Agenda For Meeting -- March 2, 1995

Campaign Overview

1. Use of paid media -- major use of paid media different from other Presidential races

A. Need not to take federal funds

-- With federal funding, \$37 million likely total, \$7.5 for fund raising.
Probably less than \$20 million for TV

-- With federal funding, no ability to do TV in key primary states

-- If assume half available for media and half for field/Pres visits:

STATE	TOTAL	MEDIA
Iowa	\$914,000	2500
New Hamp (include MA)	\$2,600,000	2800
Arizona	\$1,210,000	3300
South Carolina	\$1,160,000	2400
Colorado	\$1,100,000	4400
Georgia	\$2,100,000	4200
Idaho	\$552,000	2800
Maryland	\$1,600,000	2100
Minnesota	\$3,000,000	7142
Utah	\$552,000	3200
Washington	\$1,600,000	3500
New York	\$4,500,000	3500

(holding 1/4 for New Jersey & Connecticut)

(In three earliest primaries, less than 3 weeks of decent media coverage)

-- Limits Presidential appearances in early states, too

- Cut NASA
- College loans

 - TV shows
 - Radio music habits to construct network
 - Locations and demographics
 - Identify key variables

– Assisted by:

- Hank Sheinkopf
 - Very emotional media
 - Different type of media
- Marius Penczner
 - Country MTV producer
 - Very varied cinema techniques
- Tony Schwartz for radio
 - See Anastasia Somosa ad

-- Not --

-- Demo media people are not very good

-- Doak or Shrum

-- Disastrous experiences with them

*Kerry for Pres: hockey/trade ad which
bombed

* Larson CT; Paolino RI

-- Loyalty questions: Kerry, Gephardt

-- Need to appease but not use them

-- Very rigid and insistent on their media

-- Shrum very ideological liberal

-- Just split -- conflict (see bitter Caddell/Doak/Shrum
breakup hurt Biden)

-- Greer

-- Adulatory media, rarely aimed at proper targets

-- Not sufficiently flexible in media

-- Bad experiences in '90 campaign

-- Shunted aside in '92 for good reason

-- '94 wins: Florida (Bush lost)

Maryland (Glendening with 2-1
spending advantage barely won -
- lost white vote 62-38, lost every
white county)

Conrad

-- Grunwald-Eskew-Donlin

-- Mandy very ideological

-- Mandy's instincts wrong

-- See disaster in health care campaign

-- Contract with America campaign

– Ray Strother

– All others, very small, regional

- Fenn & King: bad job in Winston Bryant
- David Axelrod: Chicago mainly, very liberal, better speechwriter than media guy
- Trippi, McMahon, Squier: wrong Squier
 - Jerry Brown in '92
 - long term trashing of Clinton
- Oxman-Schweitzer
 - screwed up Gore in '88

B. Consultant Mix

– No two teams – one group only

– Premises of Squier-Morris-Schoen team

1. Expand vote share v fortify base

– focus on expanding base, not just strengthening it

2. Use issues to win v use images and visuals

3. New Covenant vis-à-vis old Dems and old Repubs v liberal neo-populism

4. Middle class focus v poor-rich class war

5. Record of successes for you v '94 debacle

6. Have vast experience

– A combined total of 94 senate or governor races:
Squier (52), Schoen (17), Morris (26)

– End use of leaks to set up team: Times, Time, AP

C. Me

- Inevitability of going public
- Dire effects on rest of life
- Need to keep Squier-Morris-Schoen team in charge to permit victory
 - unlike anyone else here, my life will depend on Clinton winning. A giant gamble.
- But leave decisions here with President and consultants

4. Issues

A. Line Item Filibuster

- Our recovery from balanced budget issue
- Make sure filibuster is dramatic, round the clock, controversial
- Play leading role in fighting for cloture
- Ready list of vetoes you would do if you had the line item
 - Release one per day during debate

B. Tax Cut Deal

- Act 2 of our recovery
- Negotiate with Packwood
- Try for minimum wage/capital gains deal based on indexing

C. Rescissions

- Praise Republicans for helping in search for cuts
- Take cuts under advisement
- Quietly, privately lobby to kill bad cuts
- Publicly only take on education cuts:
 - Drug free and safe schools
 - WIC
 - School to work
 - Goals 2000
 - AIDS prevention
- Total of less than \$1 billion of \$20 billion, stress low amount
- You and Hillary visit cut children's programs

D. Regulatory Moratorium

- Make explicit veto threat
- Make fight over three regulations:
 - Probe for e coli microbes in food inspection
 - Replacing smell, touch, feel "test"
 - Drinking water regulation
 - Cryptosporidium no requirement for testing it
 - But in Milwaukee, made thousands sick and killed many
 - Milwaukee wants tests imposed
 - Air commuter safety
 - New York Times critique of current regulation
 - Recent crashes. No effective anti-icing regulations specially designed for commuter craft in US conditions
- If Republicans claim exempt from moratorium, cite litigation which blocks enforcement

E. Welfare Reform

- Fight over work requirement**
 - Modified in House to 90% by '98**
 - But if not, penalty on state in form of aid cut**
 - We want people who won't work thrown off welfare**
 - "Seeking work" covered, blast loophole**
 - They are modifying bill as fast as we can read it, get going with criticism soon**

F. Affirmative Action

- Move immediately or risk being eclipsed**
- No need to supply details, just leave it to agencies to make proposals**
- Add advisory committee to vet proposals**

G. Lobbyist Reform

- Wash hands:**
 - No lobbyist money in '96**
 - No DNC lobbyist money in '96**
 - Refund \$13,000 in defense fund money**
- Then proceed with executive orders:**
 - Ban contacts between executive branch and foreign lobbyists**
 - Ban gifts from lobbyists to executive branch**
 - Require reports of each contact by lobbyists from executive branch officials**
 - Badges for lobbyists in executive branches**
- Finally, draw up legislation making the above applicable to Congress**

H. Immigration

- Propose cuts in legal quotas
 - Include elimination from Arab nations identified with terrorism (except for pol. asylum)
- Good move in cutting border fee

I. Child Support

- Propose law, or do by executive order, that IRS withholds support payments from wages, not just from refunds

J. Foster

- Rebuttal on syphilis study
 - Podesta: stress that Nazis who did the "study" didn't tell the county medical society full truth, don't bet the farm on the issue of who was at meeting
- Rebuttal on dis-accreditation of ob-gyn and of med school
- Keep to low profile while we recover on fiscal side with line item veto fight

K. Iraq

- Make big deal of fighting Russians and French on continuing sanctions
- Plug leak in sanctions and take credit

L. Iran

- What are facts
 - Why is their light water reactor worse than No. Korea's which we back
 - Impact of aid cut
 - Oil embargo as alternative
 - Increase Saudi production to offset Iranian

5. General Political

- Try to use Bolivia aid cut over their exceeding cocoa limits as personal issue
- Attack Republicans on no bids for infant milk formula: \$1 billion dollar windfall for formula companies
- Use Greenspan testimony to push him on rate cuts
- Probe Lott on base closing deals
- Curry
 - Very, very useful
 - Invite to staff meetings
 - Get him an assistant
- Haiti visit
 - If peaceful, why not do it
- V-E day celebrations
 - Urge you attend
- Call Betsey

TO: THE PRESIDENT

1. All major decisions made at Thursday Group
2. Participants:
 - a. The President, The First Lady, Panetta, Kantor, Morris, Schoen, Squier, and eventually, Curry
 - b. Others as the President determines

B. Chairman: Kantor

1. Total control over staffing, budgeting, scheduling, etc.

 - a. Low profile manager, removable at Kantor's will without much fuss
4. Bowles works under Kantor as administrative person

C. Spokesman and Chief Of Staff: Panetta

1. Spokesman on public issues

3. Input solicited, listened to, taken seriously
4. Carville
 - a. Fleshes out populist aspects of race
5. Greenberg
 - a. Supplements focus groups
6. Bagala
 - a. Helps with rhetoric and positioning

2. Declining Poll Ratings -- Due To Partisanship And Populism

A. Public Perceptions of Gridlock and Partisan Bickering

1. We win each issue, but lose the overall game
2. Our ratings and Dole's and Gingrich's are joined at the hip.
We go up or down together
3. You live in a Democratic culture that applauds moves that attack Republicans and defend Democratic values, but which come back to haunt you in ratings
 - a. If it feels good to your circle, be suspicious of it
4. Speeches are too diffused, each contains everything, needs more focus so press has to cover the message we want, not the Rep vs. Dem message they are inclined to cover
 - a. Suggest standing orders to run speech drafts by Curry (and, through him, me) at every stage of the process -- not just a few days before. Curry and Bahr are developing a good rapport

B. Attacks on Republicans and anti-rich populism was right for Feb and early March

1. We needed to demonstrate Republican monstrosity to get sufficient public backing to force compromises
2. But we needed to switch gears right after defeat of balanced budget amendment
3. Lesson: It is taking too long to turn around our battleship

4. The cities speech on Monday shows that when New Covenant rhetoric and anti-Republican rhetoric are side-by-side, the press will ignore New Covenant and only cover attacks on Republicans

a. Just as Friday's Press Conference showed that when anti-rich comments are mixed with New Covenant, only populist comments get covered

b. Therefore: need to discipline speeches to showcase only one push at a time -- conciliatory or confrontational, not both at once

C. Now we need major effort to break gridlock and get bills passed

1. Effort is not enough, we actually need to sign laws

2. Point one of strategy: let the wave exhaust itself by its own successes

3. Frustration will lead to energized Republicans in 96

**D. Proposal for "Pile of Vetoes Speech" and White House-Senate
"conference committee"**

1. Give speech with drama and flair to mark important point of \
departure from Feb-March rhetoric

A. Summary Of Speech

1. Americans demanded change in 92 and 94
2. At first we worked together
3. Now: Partisan gridlock
4. "I was not elected...to produce a pile of vetoes or
a stack of issues for the next election"
5. Resume momentum for change
6. Sketch out common ground
7. "Ideological purity is for dictatorships,
compromise....and negotiation are the substance of
democracy"

— Then review areas and direction of compromise --
see next page (2-E: "Outline of Likely Deals")

2. Be sure all White House staff is on board for new line
3. Cut deals on everything with Senate and confront House
with fait accompli
 - a. Name "conferees" to negotiate
 - b. Suggest Curry's inclusion so I can keep my hand in
 - c. Suggest Griffin, Galson, Rasco, MacLarty, and Curry
as conferees
4. Weekly meetings with Congress leadership
 - a. Majority leaders included to get in Lott

E. Outlines of likely deals:

- a. Give way on capital gains
- b. Get our way on middle class limits on \$500/child
- c. Get our way on college education
- d. Leave minimum wage out of it

2. Regulation

- a. 45 day override for moratorium
- b. Cost v health standard for regs, not cost v cost
– Roth Bill
- c. Some alternative dispute resolution to avoid strangulation in courts
 - Make 45 day override permanent
 - Have exec-leg commission rule within a year on appeals from regs (or within 3 months if "urgent")
 - Special courts like immigration courts
 - No injunctive relief possible in regular federal court system

3. Line item veto: win it

4. Term limits: berate House for failure to pass

- a. Press for statute allowing states to act

5. Unfunded mandates

- a. Sign it with hoopla

6. Litigation reform

- a. Let Senate chop it to pieces

- Modify loser pays for expedited ruling at start of case

- Punitive damages are to deter future abuse

- So, set up four levels based on judicial determination, after hearing evidence, on severity of damage if defendant's conduct is not deterred and on likelihood of each dollar level constituting sufficient deterrence to avoid repetition

- 250,000 normal maximum

- 500,000 if "significant chance of injury to others similarly situated if defendant's conduct is not deterred"

- 1,000,000 if "real danger to life, health, or safety is found for others similarly situated if conduct is not deterred"

- Up to 10,000,000 if standards for 1 mil is met, but judge finds that larger reward is necessary to deter conduct in future

- b. If entire bill doesn't pass Senate, that's OK

7. Peacekeeper bill

- a. Delete provisions cutting UN aid by amount of US spending
- b. Delete other provisions you find obnoxious

8. Crime bill

F. Preparing Senate Democrats for Compromise

- 1. Extended dialogue with moderate Dems
- 2. Push hard on line item veto
- 3. Start with Dems who voted for balanced budget amendment
- 4. Walk them through compromises and actively participate in negotiations between them and Republicans

3. Paid Media

A. Ratings improve after major speeches -- Ads will have same effect, but permanent

B. Need decision on No Federal Funds

1. Will poll rationales (see polling section)

C. Need actual fund raising for May buy

1. \$2.5 million for 700 points

2. Crime -- 100,000 cops likely theme

D. If exempt from federal limits, heavy push in NH, Ariz., Iowa

4. Polling Needs

A. Proposed Poll

1. Musts

- a. Test New Covenant rhetoric and contexts
- b. Track President's and Hillary's image
- c. Track discontent with Republican/Gingrich cuts
- d. Test rationales for no public funds

-- Cost of "Must" package: \$25,000

2. Optional

- a. Affirmative Action statement
- b. Direct payment of student loan
- c. Tracking on Foster
- d. Whitewater defense
 - No indictments, no big deal
- e. Test opposition to Medicare under HMOs
- f. Test economic considerations or only health in regulations

-- Cost of "Optional" package: \$5,000

5. Affirmative Action -- A New Approach:

A. General Principles

- 1. Government should be color blind and gender neutral unless there is specific statistically based evidence of discrimination**
- 2. Affirmative Action programs should be based on need so as not to discriminate against poor white males**

B. Specifics:

- 1. Law should be color blind**
 - a. No racial or gender criteria, only needs based criteria**
- 2. If evidence of discrimination, can use race or gender based affirmative action**
 - a. If statistical evidence of disproportionately low hirings or promotions of minorities or women, affirmative action by race and gender can be used, but only insofar as it is necessary to end this discrimination**
 - Specific acts of discrimination not necessary to show, just statistical evidence**
- 3. No matter whether discrimination or not, all affirmative action programs must benefit all people below poverty level, regardless of race or gender**

C. THEREFORE:

1. If no discrimination found by statistical evidence, then no basis other than income is possible
2. If discrimination is found, then affirmative action based on race, gender, and poverty can be employed, but such programs must not exclude poor white males.

D. Evidence and argument:

1. Unfair to exclude white males in poverty
2. Need to fight discrimination
3. Affirmative action must be color blind unless there is discrimination

E. Rhetoric

1. By basing racial preferences clearly on discrimination, we put rightist opponents of these preferences in the position of defending discrimination.
 - a. Dole says he's against discrimination. Use this position to press him on affirmative action where discrimination exists

2. By extending benefits to white males in poverty, we demonstrate compassion and equal playing field for white men.

a. 13.4 million children in poverty are white male headed households out of a total of 23.2 million total children in poverty

- 3.6 million children in black households
- 2.9 million children in Hispanic households
- 2.3 million children in female white headed households

- Included in 13.4 million children in white male headed households are 500,000 children in single male headed households

3. By excluding color or gender from affirmative action, unless discrimination is present, we articulate the idea of color blind affirmative action as the ultimate goal.

a. MLK was moving in that direction at the end of his life when he made common cause with Memphis sanitation workers and, in a host of speeches, urged economic empowerment and a class based, not merely race based, coalition

b. Jesse Jackson's rainbow coalition articulated same notion

- Use rainbow to neutralize Jesse

- If oppose your stand, was he kidding about rainbow?

4. Racially or gender based affirmative action is only a

temporary expedient to remedy discrimination, not a permanent fixture.

a. If affirmative action is temporary or transitional, as now supposed, it will terminate as discrimination ends. Discrimination is clearly in retreat and the end is in sight

b. Key change in concept of affirmative action

5. Affirmative action should continue to exist, on a needs basing only, after discrimination is remedied. color blind affirmative action for poor people is societal imperative

a. Affirmative action is a permanent necessity to fight poverty and can continue to exist if we base it on need, not discrimination

F. Changes:

1. Affirmative action is permanent to help poor, not simply as expedient to remedy discrimination

2. White men in poverty will now be helped

3. The ultimate ideal of color blind is now clearly before us

G. No changes:

1. Still use affirmative action to remedy statistically proven discrimination

H. On Set Asides

1. Base on geographic location of firms in poverty areas

and

On former poverty status of employees

and

**On ongoing involvement with and residence in poor areas
of senior management**

2. Argument

a. Set asides are too often basically phony. They benefit people who are minority or female, but have nothing to do with poor people or inner cities. By requiring location and ongoing involvement with poor communities, as opposed to racial or gender criteria, we assure that set asides help poor areas, not upper income areas.

b. 2/3 of all black and Hispanic people are not poor. We must assure that scarce resources go to people and communities genuinely in need, not to those who can make a historic case of discrimination

I. Differences from Democrats

1. Target communities, not minority rich -- end phony set-asides

2. Set goal of no affirmative action by race

3. Help white men in poverty

J. Differences from Republicans

- 1. Affirmative action is a permanent necessity to help poor people**
- 2. Affirmative action based on race and gender is necessary to fight discrimination where evidence proves there has been discrimination**
- 3. Set asides that target poor communities necessary to help save cities.**

6. Policy Suggestions

A. Lobbyist Reform

1. Unilateral actions for immediate announcement

a. Renounce all lobbyist contributions for 96 campaign

- 1. Would also include overt lobbyist sponsorship of fund raising**
- 2. Can't have events at lobbyist homes**
- 3. Would not include lobbyists helping to raise money from other sources, just not overt sponsorship of events**

b. Announce a parallel policy for the DNC

c. Refund the \$13,000 collected from lobbyists for defense fund

d. Refuse to hire any lobbyists on campaign staff or include them in any advisory board in campaign

2. Executive Orders

- ##### **a. Since no legislation is contemplated in this phase — and wouldn't pass if it were — we are reversing the process to regulate employees of executive branch, not lobbyists. An inside out approach to regulation, but effective nonetheless**

b. Ban all contacts between executive branch employees and lobbyists who represent a foreign government

1. Law currently requires registration of all such lobbyists

2. Law currently requires full report of each contact by lobbyist

3. Law would now preclude such contacts with all executive branch employees

4. Practical effect: end foreign lobbying

c. Require all executive branch employees to disclose all contact with lobbyists. Including date of contact, name of lobbyist, interest represented, and substance of call

1. Pattern report after that which lobbyists representing foreign governments now must file after each contact with govt official

2. Because there is no executive branch registration for lobbyists:

a. Employee must ask if person is a lobbyist for a party in the matter under discussion (or if his firm is)

b. If yes: must file report as noted above

c. If no: must send name to Ethics office for vetting. If found to be a lobbyist, then reporting requirement would trigger for all contacts with that person including that which has already taken place

- Logistical support, aid, intelligence
- Use military aid to develop regional capacity for intervention with U.S. logistics

3. POLL APPROVAL

1. Suggest Review Text At Meeting

4. A MARXIST ANALYSIS OF NEW THEMES APPROACH

A. It is not enough to be the Democrat who isn't a spendthrift and the Republican who isn't cruel. Affirmative positioning vital

B. Three formative events in recent political history

1. Recession made Reagan-Bush inactivism intolerable

- Result: Clinton's election

2. Health Care, Gun Control, and Tax Changes made Clinton's governmental activism unpopular

- Result: Gingrich-Dole victory

3. Draconian Republican Cuts in School Lunches and other compassion programs make less government suspect

- Result: A hunger for a new synthesis

C. Two paths for '96: Bifurcation -- refighting the dialectic

vs.

Triangulation -- create synthesis

1. Refighting dialectic (populism and partisanship) won't

work because it merely reignites impetus for '94
Republican victories

2. A little populism steals headlines and drowns out your
New Covenant message

-- Experience of Friday press conference

-- Like a drop of ink in water, it takes over

3. Synthesis builds on history, does not attempt to alter it

4. The triangulation of the new synthesis mirrors the
individual conclusions of most voters and all swing
voters

-- Harnesses "plague on both your houses" vote

-- Perotist appeal

D. Articulation Of Synthesis: New Covenant

1. Learning process is key

-- Reinvent New Covenant as the product of
evolution from '92 and '94 dialectic

-- Walk people through their own learning
experience

-- Revisit defects of past proposals:

-- Bush passivity

-- Clinton big government (I've learned)

-- Gingrich compassion cuts (without personal
attacks)

2. Express Triangulation On Each Issue

a. Taxes:

Old Dem: -- no tax cut

Rep: -- tax cut for wealthy & with
no purpose

Us -- aim at middle class &
catalytic of better raising and
educating of children

b. Balanced Budget:

Old Dem -- raise taxes or don't do
it

Rep -- cut everything in sight

Us -- bring down deficit more
gradually so as not to cut
children and education
investments

c. Regulatory Reform:

Old Dem -- don't

Rep -- no govt regulations

Us -- change code napoleon
itemization to a common
law/common sense
approach based on:

- flexibility
- empirical experience
- differing vehicles of
dereg depending
on the issue
- taking account of
feedback

d. Welfare Reform:

Old Dem -- don't

Rep -- punish

Us -- change to a system of
incentives and disincentives
to move people off. Use
welfare to get people off
welfare

e. Crime:

Old Dem -- don't toughen laws

Rep -- toughen courts

Us -- toughen courts and
community policing and drug
treatment and job training,
etc.

Us -- continue, but base on need

3. Relate To Other Contexts In Speeches

a. Biographic

-- Alcoholic father = standards

-- Small town boyhood = opportunity

b. Societal

-- 40s and 50s = self-sacrifice/old Dem

-- 80s = narcissism/Rep

-- 90s = responsibility/new Dem

c. Programmatic

- Great Society failures
- Self-defeating cuts
 - housing cuts = homelessness
 - school cuts = crime, joblessness
 - job training cuts = unemployment
- Intelligent cuts needed
 - cut welfare, not investments

G. Baseball strike -- NLRB

TO: THE PRESIDENT
RE: AGENDA FOR MEETING ON APRIL 5

95

**1. OUR STRATEGY IS NOT DOING ENOUGH TO IDENTIFY THE
PRESIDENT WITH CENTRIST REFORM**

- A. The vast bulk of our rhetoric is anti-Congress and anti-Republican
 - 1. Getting involved in a zero-sum game with Congress is a very bad idea
 - 2. Congress is winning the PR war
 - a. Congress' ratings are pretty good. 58-35 approval of first hundred days in CNN/USA poll
 - b. 49-39 say Congress is doing right amount of cutting not going too far
- B. Even if we define the Congressional Republicans as bad, we are not doing enough to define Clinton as good
 - 1. We are being folded into Democratic rhetoric of rich v. poor and harsh cuts v. rich tax cuts
 - a. It makes us old Democrats, not new Democrats
 - b. It reinforces idea that voters must choose one either Republicans who cut too much or Democrats who spend too much

2. The new Clinton positions are receiving short shrift and are getting submerged in a two way Dem v. Rep fight

- a. Welfare Reform has been submerged in our concerns about school lunches
- b. Tax Cut proposals have been submerged in our concerns about tax cuts for the rich and deficit cutting
- c. Our commitment to state empowerment has been submerged in our attack on block grants
- d. Our progress in cutting government size is being submerged in our opposition to Republican budget cuts
- e. Our regulatory reform is being submerged in our opposition to Republican regulatory cuts

3. Even Clinton's centrist accomplishments are getting no attention -- drowned out by partisan rhetoric

- a. Line item veto -- no credit at all
- b. Budget cuts are becoming exclusively Republican in their perceived origin
- c. Tax cuts we proposed are forgotten, Republicans are now the tax cutters
- d. Cuts in regulations are getting little attention

C. Even if this produces short term gains by hurting Republicans, its long term cost in tying Clinton to Democratic orthodoxy is too big a price to pay

D. Ultimately, this strategy demands vetoes which will undermine central element of strategy -- that we exhaust the wave and permit Republicans to become satisfied

1. Rhetoric will trap us into vetoes to show strength and consistency
2. Our failure to articulate third way alternatives and to negotiate them will lead to vetoes
3. The more the public sees these issues in bi-frucated terms the more vetoes will be evidence of commitment to Democratic Party orthodoxy
4. Unless we articulate third way solutions in the crucible of the current controversies, the more they will become irrelevant and inadmissible later on

E. The result of this responsive, anti-Congressional Republican Strategy is the miniaturization of the Presidency

1. Makes Initiatives Hard To Sustain
 - a. Like Minimum Wage, it gets marginalized
 - b. Like Reinventing Government, it is seen as irrelevant in face of more drastic Republican action
2. If Clinton is always seen as responsive, it is hard to switch into a pro-active mold when needed
3. The perception of an inactive Presidency likely reinforces idea of weakness

F. Doug Schoen's Focus Group Research

1. Focus groups conducted with swing Dems and Ind voters

a. San Francisco, Louisiana, Minneapolis, New York, Florida over last two months

2. Major findings of research:

a. Impetus still with Republicans in Congress

PILE OF VETOES SPEECH DRAFT

In 1992 and in 1994, the voters of America threw a gauntlet to our democratic form of government -- a demand for action, a demand for change.

Now the question confronts us squarely: are we to mire in gridlock or will we deliver the bold, aggressive action they seek?

At first, it seemed that we could deliver. Unfunded mandates were, at last, banned.

Congress moved quickly and honestly to subject itself to its own laws.

And the promise of real reform -- line item veto, tax cuts, spending reductions, welfare reform, tougher laws against crime -- seemed within reach.

I met with Speaker Gingrich and Majority Leader Dole and we seemed ready to go arm-in-arm toward the future, without deadlock or gridlock.

But, now that bold forward thrust of progress seems in peril.

There is blame on both sides.

The Republican majorities have moved to cut not only waste, but vital programs like school lunches.

Faced with such drastic cuts, many Democrats have felt unable to support even the parts of the Republican programs they want

2

We must be sure that the advocates of the Contract for America do not embrace a kind of dogmatism and ideological purity which admits of no compromise and asks only for confrontation and inaction.

For my part, I was not elected President of the United States of America to produce a pile of vetoes or a stack of issues for the next election. I was elected to effect change.

So I appeal to my Republican and Democratic colleagues to get together and resume the momentum for change.

Let us not allow this last best hope of change to die amid a partisan clutter of charges and accusations.

We share so very much common ground.

We both back welfare reform with time limits, work requirements, and state empowerment.

We both want tax cuts and we both want to pay for them with spending cuts.

We both want immediate deficit reduction and want to establish a path to reach a balanced budget as soon as possible.

We both want less government regulation.

We both want a line item veto.

We both agree on most of the basic crime package the House has passed.

We both are prepared to make across the board cuts, except in social security and possibly medicare, to cut the deficit.

We both want to reform affirmative action.

We both want to reduce the impact of lawsuits on our society.

-3-

But ideological purists on both sides throw details at concepts and threaten to derail them.

Ideological purity is for dictatorships. Compromise, adjustment, listening, and negotiation are the substance of democracy.

We are so near so many breakthroughs, we have only to see our common ground and dare to tread on it.

So I invite the Speaker, the Majority Leader, and the other legislative leaders to a summit discussion with me to probe common ground and look to joint action.

Let me articulate a few basic principles I hold dear:

Taxes -- we must produce a tax cut. It is the only way we can be sure that the recovery of 1993-4 produces real gains for real people. To put the entire fruits of this recovery into the task of deficit reduction is to defer for too long the pressing need of many middle class families for financial relief. Tax cuts and deficit reduction must go hand in hand.,

But neither can we cut taxes so drastically that we lose this historic opportunity to bring down the deficit even further. The idea of \$200 billion tax cut is a fantasy that polarizes the Congress as it deludes the people. I suggested a tax cut of \$63 billion and call for enactment of a cut in the \$50-\$100 million range.

Since we cannot afford to cut everybody's taxes, lets cut the taxes of the middle class. I propose that the tax relief be largely aimed at families with incomes of under \$75,000.

Lets use the tax cuts to promote education and improvement of the lives of children -- Use the tax cuts to help the next generation by targeting families with children and college tuition for tax deductions.

-4-

Welfare Reform -- The Republican leadership and I agree the system needs drastic change. We all agree states need more flexibility and power. We all agree on stiff work requirements as a precondition of welfare. We all agree on time limits for welfare. A series of sticking points separate us.

How can we strengthen the work requirements in the current bill? Lets sit down and craft a program that not only cuts welfare, but moves people into jobs. It is ridiculous to cut welfare and then cut or limit child care. Where are they supposed to put their children when they go to work?

Should benefits be paid to children whose mothers are teenagers? Of course they should.. We can't punish children for the marital status or age of their mothers.

Should welfare ever be an entitlement? Should we let each state decide for itself? We need to sit down and address the issue and try to find common ground. Let us not be polarized by slogans or rigid formulae.

We are so near an historic change of enormous magnitude. Lets talk through these differences not with a lust for victory but with a realistic understanding that no bill becomes a law unless it commands the support of both Houses of Congress and gets my signature on the bottom of it.

These differences would make lovely issues for us to oppose each other on in 1996. But that would be ruinous. People would lose faith in our ability to change or to put aside politics. Lets keep faith with the people. They want laws, not bills. They want compromises, not campaign issues.

-5-

Now, there are two ways to cut -- the way to cut and the way to generate campaign issues. I could sit back and say lets cut all the Republican's favorite programs and I'd have a great speech, but no real cuts. The Republicans could put down a whole list of cuts in education and children's programs that they know I can't stomach and then blame me for big spending.

This would make great political fodder. But it won't cut the deficit. So lets back away from the cuts which we can't agree on. Republicans know they're never going to sell cuts, or caps as they put it, in school lunches, so get off it. Get over it. There's lots we can cut and agree on. Lets make those cuts and not play little games of chicken with each other.

And, please, it is hard enough to cut spending. We don't need all kinds of extraneous riders on the bills we pass. Issues like abortion funding, clean water standards, the prevailing wage law, the issue of striker replacement don't belong in a spending bill. Lets debate these, but lets not derail the sensitive, precious spending cut legislation with these political blockbusters.

Line Item Veto -- Please pass it in its strongest form. I appeal to members of my own Party not to stand in the way. This is no time to quarrel over who can cut spending. Its time to give the President and the Congress a shot at cutting it. We need both of them in the game to bring down the deficit.

Regulatory Reform -- We have too many regulations, we have vested too much power in a largely unaccountable bureaucracy. The Republicans deserve all the credit in the world for raising this issue and bringing it to the forefront. Whether it was Vice President Quayle's paperwork reduction or Vice President Gore's reinventing government effort, we know where the obnoxious regulations are and we know who the unbending regulators are. So lets change things.

-6-

But the answer is not -- its just not -- to stop the federal government from regulating anything. Whether we're stopped by a moratorium or by an endless series of lawsuits, we'd still be stopped. No Republican wants unsafe plains to fly, important animals to become extinct, the air to be more polluted, or working conditions to be unsafe. Every Republican understands that these issues are often blind spots that free enterprise competition doesn't see and that some form of public regulation is needed.

So lets do it. Lets reform these regulations. Send me a bill that strait-jackets all regulatory authority and you'll get a veto you can't override in return. But sit with me and develop ways to translate thousands of pages of fine print regulation into common sense principles and we'll do it. Sit with me and figure out how to make bureaucrats accountable for their decisions, how to stop the literal and nonsensical application of each regulation, how to let experience guide our regulations, not the tortured fantasies of some agency trying to protect itself, sit with me and work through those issues and you won't get a veto, you'll get historic change.

Lets apply the system of checks and balances to regulatory policy. I approve of the bill the Senate recently passed allowing Congress to override regulations within 45 days. It is appropriate that our system work to review such regulations. But lets not use years of litigation and the threat of judicial injunction to do the checking and the balancing. For while judicial injunctions may apply, unsafe planes may fly, impure meat may be eaten, and polluted water may be drunk and these are unacceptable prices to pay for review.

Crime -- If you must try to repeal my 100,000 cops program and the ban on assault rifles, go ahead and cast your votes, I'll send my veto and we will have each have made our positions clear. Then lets enact into law the the parts of your crime bill revision we both can support. Lets get that bill onto the statute books.

Legal Reform -- Are there too many lawsuits? Yes. Are jury rewards often out of whack? Yes. Should someone get millions for being served coffee at McDonald's that's too hot? No.

-7-

Much of the reform package is good and deserves enactment. But a blanket limit on punitive damages just makes no sense. I have a different idea. Lets let the jury decide if punitive damages are warranted and then lets let the judge decide how much they should be. There is no history of judicial abuse of these issues. If we trust judges enough to select them in the first place, lets trust them to set the amounts of punitive damages.

I'm glad the Senate seems to be scraping the loser pays parts of your litigation reform package. It never made much sense to me anyway and just stops moderate income people from exercising their right to sue. Its kind of a judicial poll tax and I'm against it.

Environmental Protection - Now I want to compromise. But there's a limit. I totally disagree with your position on making government pay property owners when it passes a regulation that cuts the value of their property. Set that precedent and soon no zoning board in the country would have to pay every property owner when it decided to change zoning. Or it would mean that we couldn't protect wetlands and forests and pure water without paying hundreds of billions to property owners. I'm just against it. Sorry, but that's one I'll have to veto.

Health Care -- I said in the state of the union that I learned that we need to change and reform health care one step at a time, so I say to the Republicans who beat my proposal last year, lets take the first steps. We know what they are. Bob Dole put them in his bill last year. Lets pass them -- portability of benefits, no ban for pre-existing conditions, extra home care for the elderly, and voluntary pools to cut insurance costs.

Foreign Policy -- If the Republicans get lucky in 1996 and take my job -- which they won't -- they won't like the laws they're now considering any better than I do. We're not going to put American troops under foreign command, but lets not kill UN peacekeeping either.

The UN is 50 years old, but its really about four or five years old. Only since the end of the cold war can it finally function as Wilson and Roosevelt -- and Vandenburg and Eisenhower - had hoped. So give it a chance. Let it learn from its mistakes in Somalia and its successes in Cambodia how to keep peace and how not to. Don't replace the Russian veto with a Congressional veto as a barrier to collective world action.

So lets get busy. There's no reason we can't pass this whole agenda this year. Make 1995 go down in history with 1933 as a year when democracy met its challenge and passed the test. And lets do it together

2. "Drag" you feel is good.
 - a. wouldn't work if just apple pie issue
 - b. let Republicans polarize
 - c. let opposition to Clinton's proposals and approach be socially acceptable enough for Republican Primary Issue
 1. force Dole, Gramm, Wilson to right
 2. general election fodder
 - d. challenge ACLU positions head on and take on liberal establishment at same time
 1. shows toughness
 2. shows triangulation

B. Radio Address--Deportations

1. Stress drivers license and court referral programs
2. Implement speed up in deportations administratively but don't make quantity the key point of speech
3. Begin to release deportation numbers a week after speech
 1. 3,000 per month, current pace, is great PR
 - a. 100/day

2. as numbers grow, it will look better

3. Ask Gore's Rego people to study ways to speed deportation process

2. STRATEGY FOR VICTORY

A. Republican Party is based on five messages

- 1. Fiscal/Economic**
- 2. foreign/defense**
- 3. racial**
- 4. crime**
- 5. social**

B. When Republicans are Reduced to Only Social Message, they lose

1. not national majority issues

- a. abortion and guns are minority issues**
- b. gays are majority issue, but not high enough profile**

2. Republican strategists know this and work to avoid having social issues only

a. they work hard at structuring other issues so as not to be left with only the social issue

b. examples

- a. Sundquist in Tennessee used income tax to cover abortion**
- b. Ridge in Pa used crime-pardons to cover up abortion differences**

C. But, when stripped of all other issues and left only with social issues, Republicans lose example: Bush 92

1. denied other issues

- a. fiscal by his tax increase**
- b. economic by recession**
- c. foreign/defense by his own success in ending cold war and by leaving Saddam in power**
- d. racial and crime by his 88 campaign and the legacy of Horton Issue and by his own inaction on this from in four years as Pres**
- e. left only with social issues**

2. social issue didn't work for him

- a. Houston convention was a disaster**

1. no bump at all

- b. Family values issue didn't gain traction**

1. except as negative on Clinton re: Flowers

- b. 100,000 cops**
- c. signing of crime bill of 95**
- d. 1,000 FBI agents, anti-terrorism, death penalty**

- a. appoint good people to Fed Res Bd.**

3. Republicans can access foreign/defense, but who cares

a. not high in public priorities

b. when an issue rises to the level of public priority, take bold, strong action

1. Iran is only one up that high now

2. don't show weakness with Russia on Iran

E. All the Republicans have left is racial, fiscal, social

1. Counter their racial appeals. We must take this issue away from them

a. counter affirmative action with our plan

1. at first, present plan as balanced between goal of color blindness on one hand and use of aff action to remedy discrimination on the other

2. After filing dates for primaries pass, move emphasis to the right and stress color blindness

3. all along stress reform of set asides which both blacks and whites like poll shows

b. counter immigration racism by deportations

2. Counter their fiscal issue by reaching deal with Republicans in Congress

a. balanced budget glide path
(see Section 3 for How to do it)

b. deficit reduction

c. tax cut deal

3. All they'll have left is social -- *check mate!*

3. How to Reach Fiscal Deal

A. Deficit Reduction/Balanced Budget

1. Give absolute political priority to making a deal

a. stop partisan shots

- 1. short term benefit of stinging them is minor tactical advantage compared to strategic windfall of getting these issues off the American agenda and giving Clinton credit for fiscal conservatism**

b. most cuts never hurt politically

- 1. see Weld example**
- 2. hide behind cover of Republicans wanted to go further**

c. get staff to focus on deal making, not fight picking

d. Conflict of Interest with Congressional Dems

- 1. Gephardt-Dashle want no fiscal deal, so they can say Republicans didn't deliver**
- 2. Gramm, etc want no deal so they can say Dole didn't deliver**
- 3. But Dole wants deal to show he can deliver (despite hurt in general)**
- 4. Gingrich wants deal for same reason**

e. "Congressional loyalists" on white house staff can't force us into vindicating Gephardt's

Elements of the Deal:

1. We give Republicans cover to back incentives for managed care and rich people premium hikes on medicare to save \$120-\$150 billion

a. we force them to divulge their budget, first

1. but avoid rhetoric that makes deal impossible

b. then we come back, in private, with incentive non-penalty program for HMOs

1. elderly support such an option, with no coercion or penalties

2. And offer backing for increases in premiums for upper income elderly (also has elderly backing)

2. We go along with heavy managed care coercion in Medicaid

a. make it a welfare issue

b. distinguish from medicare

c. even with elderly on medicald, be tough

1. they are in nursing homes, so it is not an anti-elderly stance, but an anti-nursing home stance

2. stress cost controls on providers, not cutting of services

3. stress cheaper home care alternative

3. Republicans Agree not to Cut President's Prized Programs too harshly

- a. avoid putting us in position of having to veto or flip flop
- b. adopt senate approach, not house approach to programs like americorps, safe schools, schools to work, etc.
- c. still make major cuts in discretionary programs, just not in our sacred cows

4. Republicans Go Toward Closing Corporate Tax Loopholes

- a. They don't accuse us of a tax hike
 - 1. just like Viacom deal wasn't tax hike
- b. We provide each other political cover for cutting a bunch of such loopholes
- c. these loopholes give us the extra \$150 billion we need to cut medicare, but can't do it

5. Republicans lay off us on defense spending hikes

6. We agree to move back the 2002 date to 2003 or 4

- a. more years of discretionary spending to cash in

7. We jointly agree to cut inflation rate underlying colas

- a. perhaps we do it administratively with Republican backing

4. Mark Penn Presentation

- 2. Chechkia (excuse spelling) doesn't matter**
- 3. foreign aid doesn't really matter**
- 4. Expansion of NATO doesn't matter**
- 5. Iran matters**
- 6. Because so little really matters to Americans, we can trade what doesn't matter for what does and look good doing it.**
- 7. Goal is not to gain short term advantage, but to wipe foreign issues off slate by killing Iran deal**

B. Must produce progress on Iran or make summit place for harsh attacks on Yeltsin.

- 1. adopt tone of old soviet negotiators**
- 2. explicitly back cuts in aid to punish for Iran**
 - a. except nuclear dismantling aid**
- 3. Trade off aid, NATO, Checkia, etc for Iran**
- 4. explain how oil embargo will lift price, help Russian economy**
- 5. cut whatever private deal you want on aid, including increase, just bring home end of Iran deal**
 - a. good will that would follow deal cancellation would make more aid possible**
 - b. wire it with Republicans in advance**

C. facade of success won't work if Iran Deal is not dead

- 1. Press won't let you call it a success without killing the deal**
- 2. Press likely won't buy half way steps toward killing the deal**
- 3. Feel free to offer concessions in return for killing deal in public**
 - a. take small hits on issues we don't care about to give Yeltsin something to take home instead of Iranian deal**
 - b. Money is fungible, make quitting deal worth Russian while**
 - a. in ego terms so he can take it public**
 - b. in fiscal terms so we hold harmless money loss**
 - 1. In atmosphere of good will, its doable**
 - 2. If republicans kill money, they take blame on Iran**
 - 3. political harm of seeming to "buy" out Russian-Iran deal is OK given harm of deal going through**

b. We're on the map as liberals, anti-balanced budget

1. Unless we move off that position, we'll be stuck

AGENDA FOR MEETING WITH PRESIDENT ON JUNE 21, 1995

I. BUDGET SPEECH WORKED VERY, VERY WELL. NOW, MOVE ON.

1. Highest in Presidency, except for one or two peaks which were short lived

2. Sustained approval in mid fifties for eleven weeks

a. reaching for a new plateau -- likely there

B. More Important --- definitely, probably, possibly vote for Clinton up to 42-44

1. Two months ago was 34-54

2. Two weeks ago was 34-48

3. We are now within reach of being able to win

C. Gain may have continued and accelerated

1. Last night poll data -- 1500 interviews (not at your expense) in Kentucky, Tennessee, North Carolina, Georgia, and Virginia shows 53% approval AND 42% def/prob/poss vote for Clinton

a. If those numbers in these five states are national numbers, based on differentiation in past surveys will likely put re-elect numbers up in mid or high 40s!

3. Take crime away from Republicans as issue
4. During Whitewater hearings, use paid media to keep up vote share and approval

- ~~6. Do it through DNC and take Republican complaint which we probably win~~

III. NEGOTIATIONS OVER WELFARE -- NOTHING MORE IMPORTANT THAN BI-PARTISAN PASSAGE WITH OUR BACKING.

--we can't really veto in any case, so cooperate and provide Demo support for compromise bill

-- don't go crazy over winning each detail -- passage is a lot more important.

AGENDA FOR MEETING WITH PRESIDENT ON AUGUST 3

95

1. BUDGET STRATEGY – MEDICARE CUTS DERAILED REPUBLICANS

A. Polling on Medicare briefing by Doug

1. solid opposition to Republican Medicare cuts

- a. 25-68 on virtually all the tests after almost any argumentation**
- b. bankruptcy argument only gets 43% to be more likely to back cuts while 50% still oppose them and has no impact at all on head to head**
- c. all other arguments work less well for them than bankruptcy**
- d. opposition by all voters is only slightly less than among elderly – about 68 for all vs 72 for all voters – not a special interest issue**

2. Move away from bipartisan strategy and substitute lift.

a. Republicans are about to acquire bad odor, not good idea to be seen in public

b. Instead of centerism, we need lift

1. run an anti-medicare campaign with paid media and surrogates

2. keep President doing Presidential events like: affirmative action, tobacco, prayer, etc. were this month.

c. we no longer will need negotiations – we will

Impose our budget on cha

d. drop all mention of tax cuts fr

a. Imples we are agains

b. forces us into class w

c. unnecessary.

1. simple formulation:

"Clinton shows us you can balance the budget and not cut medicare benefits"

2. tax cut argument doesn't gain us a point (66 before, 66 after)

B. Strategy – fold out

1. Step one: Ads

a. run ads in moderate Republican states to pry loose swing Senators – \$700,000

1. Iowa, Des Moines Grassley
2. Kansas, Wichita, Kassebaum
3. Maine, Portland, Snow, Cohen
4. Missouri, Spring, Col, St. Joe, Bond, Ashcroft
5. NY, upstate small, D'Amato

9. S.D., Sioux Falls, Pressler
10. Tenn, Nashville, Thompson, Frist
11. Vt. Burlington, Jeffords,

2. Step One: Free Media

a. in N.H., have Ann Lewis start a pledge movement

Aug 3
195
P2

b. publicize CBO scoring of mar

1. hold their feet to fire so
vouchers higher th

3. Step Two: Paid Media

a. continue marginal republican senate

b. begin swing state ads

c. aim media at targeted seniors

cost of all three: \$3.5 mil for 1,000 pts
likely cost will equal \$5 million for 1500 pts

d. ads which respond to republican answers and
developments in political situation

e. goal: to raise the heat to such levels that
Republicans

1. abandon their plan

2. try to postpone everything until Nov.

3. eventually feel the heat so much that they
demand a quick resolution, a reconciliation
on the President's terms, to lower their
political heat

f. Splitting the Republicans

1. as pressure mounts on moderate
senators and GOP generally
they will split and blame each other

2. Gramm may open a populist front against
Dole

3. Wilson, Alexander will hit Dole on medicare

P3
Aug 3
'95

4. eventually, Republicans will break into small groups, a la how we were on health care in August, 94

p 4
Aug 3
1995

4 Step Two: Political and Free Media

1. Push pledge on senators and introduce resolution embodying pledge

a. force a vote

b. counter their amendments to resolution to make them flesh out medicare cuts three weeks early

2. Refuse negotiations

a. don't let them use us a shield on cuts

b. force them to split apart, not encourage unity by negotiations

c. grounds for refusal

a. we won't negotiate elderly benefits or education and children

b. we'll only negotiate with Republicans who agree to no budget cuts in elderly benefits, no increases in premiums, deductibles and co-payments, and no cuts in "education and children

a. finesse how we define children

b. we are not conceding anything not on this list

c. pledge and resolution
and our negotiation
position doesn't rule
out:

-elimination of drops
in premiums
-cola increases in
premiums

5. Republican Escape Routes

a. Bankruptcy

1. argument doesn't cut, give free media
answer, but don't pay too much
attention

b. Benefits will Rise

1. same as above

c. Vouchers will replace cuts

1. get press to force CBO to maintain
low scoring

a. or undermine credibility of
high scoring

2. by attacking vouchers as unfair, force
Rs to make exceptions and skew
the vouchers

a. that makes CBO score in lower

b. it smokes them out to name their
real cuts

6. Delay – the ultimate option

a. use pressure of paid media to get

**Republicans to want a closure
sooner rather than later**

**b. avoid and resist any bi partisan
involvement**

7. Coping with Train Wreck

**a. as part of delay, Republicans will
likely try to make train wreck main
event to distract attention from
medicare**

**b. we need to defuse train wreck
scenario. see next section**

2. TRAIN WRECK – COMING OUT AHEAD

**A. Key to avoiding it is to make Republicans bleed over
medicare so they need a pre-Oct. 1 solution**

B. Options on Train wreck – still under consideration

1. Don't sign continuing resolution that embodies cuts

**a. we are checking to see if the consequences are
politically acceptable or useful**

2. Sign resolution with Republican cut levels

**a. we could maximize pain to demonstrate how bad
their cuts are**

**b. we could minimize pain to relieve any pressure and
let the medicare issue continue to give them
fits**

3. Proposed strategy for next meeting

C Ultimate budget outcome and goals

1. no ed cuts, our medicare program
2. 8 years in return for some of their tax cuts and all of ours'
3. likely, a minimum wage deal in the bargain
4. In return for not humiliating them, get them to ratify us as budget balancers

8/3/95

3. TOBACCO --- NO RUNNING ROOM ON RIGHT. JUST WORRY ABOUT LEFT

A. Poll briefing by Doug

B. They know all ads are aimed at kids

1. they understand Marlboro man, etc. are aimed at kids
2. they know the main goal of ads is to get kids to smoke

C. They would favor anything you propose

1. Favor bans on billboards (69-30) and on magazine ads (66-32)
2. Favor text only ads (70-28)

D. Only danger: attack on left which leaves us unable to make the issue

1. FTC too weak
2. banning child oriented ads too confusing
3. laughable in inconsistency

8/3/95 Carl

4. go with text only

- a. there is no such thing as an adult oriented cigarette ad in the public's view

E. Don't delay -- will create impression of indecision

F. Don't negotiate

G. If you get a bill which Kessler urges you to sign, then sign it otherwise, don't. You cannot leave running room to the left of you on this issue

1. it would stop us from using it as an issue

2. would only exist as a negative

4. SPEECH ISSUES

AGENDA FOR MEETING WITH PRESIDENT ON SEPT 7

I. IMPACT OF ADS -- EXCELLENT, BUT MORE IS NEEDED TO HAMMER POINT HOME

A. 38% recalled seeing the ads

1. good show for 1000 points

B. Of those who saw ads:

1. swings of +15 in our ratings and -14 in there's on helping to protect Medicare
2. swings of +10 in our ratings and -8 in there's on helping elderly parents
3. swings of +11 in our ratings and -3 in there's on wants to balance the budget

II. AD RECOMMENDATIONS -- KEEP UP PRESSURE

A. Stress President's commitment to balanced budget

1. the more the public believes we are for balanced budget, the more ability we have to insist on our terms
2. the opposite of the welfare debate (where lack of public belief that we are for reform, makes it harder to insist on our version of reform)

B. Shift focus to Education, the key appropriations battlefield

C. Run Medicare spots in swing state markets along with education ads to bring public up to speed

III. HOW TO PAY FOR ADS WITHOUT BUSTING FEDERAL CAPS

A. I propose about \$50 million of pre-convention ads:

1. \$10 billion to win the budget fight

*Sept 7,
1995*

- a. now-Nov 15
- b. all DNC payable

- a. Apr 15-August 1
- b. all DNC

5. Total DNC: \$33 mil Total Campaign: \$17 mil

B. Key Questions

- a. with no primary fight, why not?
- b. travel more on official business.

2. Can we raise an additional \$33 mil for DNC

- a. in addition to about \$20 mil we have to raise for them already to meet their budget
- b. total to raise for DNC=\$50 mil
- c. less about \$5 - \$10 mil through better direct mail targeting using Penn's data

d. equals net of about \$40- \$45 mil to raise
e. almost all soft money (enough mail to
cover hard proportion)

9/2/95
PJ

f. If we could raise \$20-\$24 million in six months
at \$1000 caps, why can't we raise \$45 mil
in 12 months with no cap??

3. Can we stop DNC from spending the money on
things other than our ads

IV WELFARE REFORM

A. Need to get credit for passage

1. Republicans have 20 point lead over us on welfare
2. Dole will have enough votes to pass the bill
3. Concessions are likely on maintenance of effort,
work requirements, and diaper vouchers
4. Therefore, don't focus in need to change bill, focus
on need to pass the bill

when it passes to show support
6. Consider trip to capitol hill on day of passage to
congratulate Senators

- REPORT FROM DENIN ON HOW WE ARE INFUSING VALUES INTO

B. Punch the message through over paid media

Sept 25 195

AJ

1. Our history — doing good things and getting no credit

 1. jobs, economy
 2. deficit
 - b. sometimes a win gets presented with too much ambiguity to generate credit
 1. trade sanctions
2. We need paid media to set up the battle in the public's mind -- education, medicare, balanced budget
 - a. while fight is in play and free media ratification is there
 - b. with the repetition and simplicity only paid media can
 - c. sets up criteria for a win: education, environment, medicare -- not tax cut size or capital gains or ten years or other NDD cuts
3. Then we need paid media to narrate the play-by-play of the fight
 - a. win game of chicken on budget
 - b. assign responsibility for any crisis
 - c. show tough President standing firm
4. Finally, show achievement and declare victory over paid media
 - a. even in ambiguous press, move credit for achievement and lay basis for future
5. In any event, don't let Republicans get their message

 - a. look at his positions
 - b. he won't win it if he seeks it

2. If Republicans run Gramm, pressure for third candidate will be huge

a. to split the anti-Clinton vote

b. to give us chances in a bunch of states we would likely not carry in a two-way (Fla, Ga, La, even Tex)

50--cutting just enough 40--mean spirited
- I. among elderly we went from 48-36 to 59-27 vs Dole

B. Impact of Ads

1. VIRTUALLY ALL THE GROWTH WAS IN MARKETS WE ARE ADVERTISING IN

2. Almost no changes on attributes outside of buy areas -- inside of
buy areas:

- a. Protect med from cuts up 9 in buy areas up 3 in non buy areas
- b. values up 9 in buy areas up 1 in non buy areas
- c. clear stands on issues up 8 in buy down 1 in nonbuy

(This is not just of seen ads -- its of markets as a whole)

3. Optimism -- Very high no national funk

- a. Will your career improve (57) get worse (8) same (33)
- b. Future children improve (52) worse (21) same (20)
- c. eco position of you and family improve 49 worse 12 same 35

g. ON ECONOMY -- OPTIMISM ABOUT SELF, CAUTIOUS
OPTIMISM ABOUT NATION, MINOR PESSIMISM

h areas of real worry are: values, families, crime, health care,
retirement

II. BUDGET SITUATION -- WE ARE WINNING KEEP UP PRESSURE

A. Republicans in bad shape and bad position

1. We have closed gap on trust more to bal the budg from 18 to 7 to 4
2. We are now 9 points ahead on bal the bud in a way that's fair
3. Bankruptcy argument is gone
4. All the Republicans have to "inevitability" as their argument

B. Need to continue ads

Oct 11 '95 PJ

1. Ads are producing important movement and we need to continue them
2. If "train wreck" ads give us reason to hold firm
3. If "deal" ads give us criteria for victory and basis for getting credit
4. During negotiations, ads give us a context to see moves as means to an end, not flip flops or weakness
5. Reaching 97 Republican and 71 Democratic Congressional Districts

C. Content

1. Stay on cuts until Republicans signal negotiations -- keep up pressure
2. Put on education ad in rotation with medicare and, later medicaid
 - a. slippage on education, need to get it back in the game
3. Then, move to conciliation ads to set up pressure on Republicans for making a deal and laying basis for taking issue away
 - a. these ads context negotiations and don't make them flip flops

D. Weight

1. First two weeks were \$1.25 million each, recommend next week at \$1 million. Then, when negotiations start going back up to \$1.25
 - a. Go to \$1 million for next week to save money so buy can stretch through mid December
 - b. Go back up to \$1.25 million in third week because that is likely

Oct 11 '95 x 4

time for negotiations to begin

E. Likely elements of a deal -- my own opinion

1. Republicans accept \$300 billion of revised growth and medical inflation estimates
 - a. basic first step -- no talks until they do
 - b. they cite Republican successes on economy and holding down medical care costs
 - c. they "demand" a look back provision with a super majority (2/3) for override
2. Serious talks take place after record votes in House and Senate -- likely after about October 23
 - a. during conference, but before final passage
 - b. Republicans signal their need to come to us by revising growth and inflation estimates
 - c. Dems get Reps on record votes and making first move through revision of inflation and growth estimates
3. Two core issues:
 - a. will we accept super majority on look back?
 - b. will we accept negotiations during conference, without awaiting final passage?
 - c. I say "yes" to both. We don't want to be doing this up against the Nov 15 deadline and with the leverage the Republicans will have at that point
 1. relative ease of this CR not likely to be repeated
 2. they will enter the negotiations weak because of growth and inflation revisions

III. PRESIDENTIAL STYLE

A. The Father Image vs Peer vs Child

1. In Arkansas, image was of their child
 - a. promising at first, then chasened, then reformed, then excelling and making them proud
2. In campaign, image was of peer
 - a. down to earth -- bus rides, town meetings, one on ones
 - b. *contrast with starchy formality of Bush*
3. Now, increasingly, image must be of father
 - a. country craves fathers -- Cosby, Lion King,
 - b. women crave men who act responsibly -- Romance novel themes are now of woman done wrong and rescued by Mr. Right
4. Images of Father
 - a. literal fathering through personal experiences
 1. don't have to tell about Chelsea, but can describe your own feelings doing homework with her, camping out, etc.
 - b. Issues about fathering: personal responsibility, child support, education, child TV
 - c. Fathering style in speeches and Q & A
 1. don't explain yourself overly -- fathers don't
 2. don't complain (about lack of credit for accomplishments, for example)
 3. no contemporary images like Blues Brothers
 4. Correct style: Memphis speech
 5. don't have peer group conversations with audience -- speak to them

6. don't be self-deprecating
7. don't ask questions -- give answers
8. don't be around unkempt kids, they need to show respect
9. maintain sense of distance not eye to eye
10. lectern should be small enough to tower over it

IV HOW TO OVERCOME ISOLATIONISM -- PENN PRESENTATION

V. CLINTON'S THIRD TERM -- THE STATE OF THE UNION

- a. clear mandate for us vs them on the plans and issues

2. If Reps say they will pass bill without compromise: Cl veto 65 sign 25

III. ADVERTISING -- THE KEY TO CONTINUED GROWTH AND BUDGET WIN. *04 25 195 PJ*

A. Despite week of tax increase comment flap and 7 year flap, we moved up

B. Manage debate, cover moves on budget, set up end game

C. Budget for Ads

1. Spent already: \$4.2 million through November 1

2. Proposed: November 2-21 spend \$5.4 million through Dec 1

1. Nov 2-8: \$1.8 mil Nov 9-15 \$1.8 mil Nov 16-33 \$1.5 mil
Nov 27-30 \$300,000

2. In November: Expand from 28% of America in current buy to 40-45 percent of country

3. And go up from current 325/week to 400/week

4. Left for December: \$400,000.

a. if we need to run in December, likely cost would be about \$2.5 million or \$2.1 mil more

D. Targeting Media -- Presentation by Penn

E. Ads -- Presentation by Squier

III. GOAL FOR NOVEMBER: SHOW TOUGHNESS IN DOING THE RIGHT THING

A. In September, we explained our budget values

B. In October, we worked to find common ground over these values

1. on race
2. on middle east and bosnia
3. through ads on the budget

C. November is about hanging tough for these values and for what is right

1. major problem is perception of weakness by about 20% of American voters

- a. the lid on our popularity and vote share
- b. what added to the 30% that are hostile over draft, Whitewater, scandals, etc, it creates potential for defeat

2. the process is the issue.....

- a. troops to Bosnia and the budget situation both provide opportunity for live, prime time view of President being tough
- b. or, they carry the possibility of showing weakness and undoing all the good work of 1995
 - a. as in funk, tax increase, and seven years
- c. the last chance we will have before the election to perform, real time, before the people when they are paying rapt attention

3.....not the outcome

- a. if we get a balanced budget, it is great. if we don't its OK too
 1. people believe we want a balanced budget and welfare reform. We don't need to win the issue any more, we already have won it
 2. if we have the issue of our plan vs their plan for all of 96, its a sure winner
 - a. look at how we have gained in August-October over the issue
- b. Impact on Powell -- offsetting

1. if a deal, his candidacy is less likely

but this is Dole's problem before it is yours'

b. let Dole cave to keep him out, we don't have to

2. if no deal, then his candidacy will be overshadowed by the budget

a. it will dwarf personality and charisma like Vietnam or Watergate did

b. to win primaries, he'll have to embrace cuts but that will straitjacket him in November

c. summary on Powell -- with a deal, he's less likely to run. With no deal, he's less likely to win

IV. THE BUDGET STRATEGY -- TENACITY, STUBBORNNESS, NO CONCESSIONS

A. Preconditions allow extreme expression of strength and uncompromising determination

1. public believes we should stand firm 64-31 and they should cave 20-76

a. partially that we are right and partially that they are pig-headed

b. so you don't have to be open minded

2. public thinks our budget plan is OK and theirs' is terrible

a. so you can't shouldn't and mustn't give an inch

3. public gets that you are for welfare reform and a balanced budget

a. on balanced budget trust we are behind by only 5

b. on balanced budget fair to all we are ahead by 9

c. welfare reform we are ahead by 7

d. therefore: we don't need a win. indefinite continuation of process is enough

e. so you can veto it without losing the issue

4. we are on paid media and that is doing everything to shape public attitudes

a. so we can be forceful and strong in public and even err on the side of rigidity because our media is showing people why we are taking so hard a stand

B. Step One -- disarm the enemy --- take away default option

1. Default -- Gingrich's and Dole's biggest weapon is also their biggest vulnerability

a. they are only capable of Mutually Assured Destruction and thus are prisoners of a "massive retaliation strategy." There is no room for "flexible response."

2. Attack Reps for holding a loaded gun aimed at your head

a. take away the ability to use default by letting public opinion and the markets take the possibility away from Gingrich

b. Gingrich is the Republican, he can't mess with markets like that

c. Dole is running for President and he sure can't do it

1. irresponsible

2. unstable

3. by demanding that he drop the threat, we show toughness, face him down and win

a. we show how unreasonable the Republicans are

b. we mobilize elite and mass opinion against their choice of weapons and thuggish tactics quite apart from the merits of the issue

4. We get to hit them in their weakest part -- causing recession

5. for all of the above reasons, we are picking a fight we can and will almost inevitably win

C. Step Two -- refuse to budge on basic principles

1. Use paid and free media to show what we are not negotiating about
2. Treat it like a labor negotiation in which each side endlessly repeats its mantra and there is no give
3. Turn talks over to Leon -- don't demean yourself by doing talks yourself
4. Each day, use post negotiation press conferences to affirm your inflexibility. Don't show progress, show stubbornness.

D. Step Three -- If they surrender, accept it..... if they don't settle for having the issue for 1996

1. we don't need a deal. we have an issue instead
2. achieve the inner peace of wanting a deal only on your terms and of being delighted to live with no deal at all

E. If country goes broke and closes down -- use crisis to show toughness

1. use paid and free media to cultivate blitz atmosphere circa London, 1940
2. Rally Americans to fight for education and medicare and environment and not to yield to blackmail
3. Use ads to shape what the issues are about
4. Use pension and other moves to keep afloat for three or four months
 - a. no need to get to social security or medicare funds, but if it comes to that, we'll use them and survive it politically
 1. once people understand what's at stake and grasp that we won't give in to blackmail, it will be an heroic experience for you

IV. DRESS

- A. you're not looking Presidential in light colored suits
- B. suggest you adopt red tie and navy suit as standard

V. OPTIMISM AS THEME -- Penn Presentation

VI. ANALYSIS OF IOWA SPEECH -- Morris Presentation

VII. OTHER ISSUES

A. Child TV

1. Do nonconfrontational event urging a Journalism School to set up a grading system, funded by foundations or networks, to grade programs and networks
2. like on time airlines ratings
3. Every month, the dirty dozen of programs
4. Every month, which network had the best programming
5. get TV guide and newspapers to publish grades
6. voluntary, no censorship, just harness market forces

B. Enterprise zones tax credit

1. as alternative to GOP tax cut in capital gains, reward investments in enterprise zone areas
2. move toward community basing (a la affirmative action)
3. good source of pork for House budget votes with rural white Dems
4. cover for cuts in public housing
5. reply to racial initiatives and March on Washington
6. sell it as Welfare Reform Part 2

a. in part one we required they work, in part 2 we'll create the jobs

C. Japan

1. in Seattle, en route, highlight good news of deal -- auto parts sales
2. In Japan, highlight unfulfilled commitments on dealerships and talk tough

D.. Deregulation

1. Heighten efforts to get Robb to back off so we can get a bad bill to veto
2. Let Dole pass a bad bill in the Senate with few improvements
3. Issue opens up a host of offensive opportunities on environment, consumerism, air safety, etc.

E. Cuba

1. Dangerous political impact in Florida for no political gain at all in normalizing relations

F. Political Reform -- Schoen

G. Affirmative Action in California

1. poll shows any positive solution is rejected, so don't pose alternative
2. even a quota prohibition won't work as a replacement because those who backed the conservative initiative on aff act back the quota by 73-17 while the liberals who opposed the aff act initiative split evenly on a quota ban 44-41.
 - a. if we banned quotas as alternative, conservatives would get the point, submit to discipline and run out on us while liberals would never side with us in the first place

D

AGENDA FOR MEETING WITH PRESIDENT ON NOVEMBER 1, 1995

a. in markets advertised: 48-31

b. rest of nation: 45-39

C. Clinton vs Powell 45-31

a. in markets advertised: 38-38

b. rest of nation 28-47

II. BUDGET STRATEGY -- NEED TO RESIST NEGOTIATING OR CALLS TO NEGOTIATE

A. Republicans will plead for negotiations -- they are "withering on the vine"

B. Opinion Leaders and Editorials will say we are being unreasonable.

1. that is the way to show strength

2. criticism over inflexibility is the way to show firmness

a. the criticism would have to go on for months for it to have anything but a positive effect

3. public wants a veto

a. Question: "last week the Republican majority in Congress passed bills they say will balance the budget in 7 years. The bill contains \$270 bil in cuts in medicare spending, \$70 bil cuts in education spending, major cuts in environmental programs, and tax changes which would raise taxes on some working families, but lower them on others support-33 oppose 63

- b. Do you think Clinton and Republicans are just engaging in normal political bickering or are important issues at stake in the budget debate such as the future of medicare

bickering 29 important issues 61

- c. more or less likely to vote for Clinton over a veto

more likely 46 less likely 15

4. public does not want us to compromise -- they want them to compromise

- a. We stated pure Republican principles. Do you want Repubs to compromise or stand firm?

Compromise a lot-38 vs Stand Firm-15
(44% said compromise a little)

- b. We stated pure Clinton principles. Do you want Clinton to compromise or stand firm?

Compromise a lot-17 vs Stand Firm-21
(59% said compromise a little)

- c. in ad markets: Repub 47 compromise a lot vs 9 stand firm
rest of country Repub 35 compromise a lot vs 17 stand firm

5. Don't float rationales for compromise or ideas for compromise in public or in private. If you whisper it, it will make its way out

6. Republicans only weapon is debt limit and CR and the public will hate them for using blackmail once they start to do it even more than they hate their cuts

III. IDENTIFICATION OF SWING VOTERS -- PENN PRESENTATION

IV. Issues on Which We Also Cannot Budge

A. Crack-Cocaine

1. Press will be looking for caving by us and we must not let them see any
2. Raising cocaine to equal crack penalties is the right position

3. total inflexibility on lowering crack sentences is vital

B. Welfare Reform

1. statistics on additional children in poverty will not move public opinion on this issue -- they will still favor work requirements and time limits
2. stress that the cuts that cause poverty -- legal immigrants, block grants on food stamps are the cuts we oppose
3. would you sign the Senate Bill? Yes. But I'd work to raise the minimum wage, protect EITC and put money behind empowerment zones so there would be no increased poverty

V. JAPAN TRIP

- A. Need to continue trade issue offensive--- a failure to raise it now would be a sign that we didn't mean it back in June
 1. Clinton is OK at confrontation through Kantor long distance, but up close, he is so anxious to make the Japanese like him that he folds
- B. Say good news on West Coast on the way out: the sale of auto parts is way up
- C. Say bad news while you are in Japan: lack of dealerships
- D. Don't let sensitivity of Japan over US troops and rape story make you weaken your trade position over there -- the stakes are too important over here

VI. WEEKLY FOCUS GROUPS -- PROPOSAL

- A. For duration of budget fight, suggest we do weekly focus groups and submit highlight films to you every week
- B. It will help you get in touch with what people are saying directly, rather than just through data

VII. REGO -- A NEW LANGUAGE

- A. Based on focus groups conducted by Alice Rivlin's son --
 1. People embrace attacks on govt. but don't believe anything is happening

2. by stressing achievements, we undermine credibility

a. If something this big were happening, I'd know about it

3. Therefore stress need to cut, not achievement

4. Stress cuts in govt jobs --- "3,000 Jobs Closed At Interior"

a. that's how corporations and cities do it and its the accepted way to push cuts in govt.

b. stress no actual layoffs -- and the number of high level jobs at top salaries being cut "12 jobs paying more than \$60,000 are eliminated

5. Don't have to prove that you are cutting. That is an accepted part of today's govt scene. You fit right in. Just make clear that you want to cut.

VIII POLITICAL REFORM -- SCHOEN

IX. OPTIMISM POINT -- PENN

X. DRESS AND MAKE UP

A. Good suit yesterday for Bosnia statement, but bad tie -- wear bright solid colors

B. On TV, you are looking pale and your nose looks too red. Use make up. Don't do any public statement without makeup. You and I are both "of an age" where it is needed

AGENDA FOR MEETING WITH PRESIDENT ON DECEMBER 7

95

I. TRACKING POLL DATA -- CONTINUATION OF HIGH RATINGS
DESPITE DISCONTENT OVER BOSNIA
LESSENING OF WEAKNESS NEGATIVE

A. Basic ratings hold basically firm

1. Approval at 58-41 (steady)
2. Head to head at 49-35 (down from 51-36 pre speech)
3. Re-elect number at 40 (down from 42 pre-speech)

B. Tremendous Growth in personal ratings -- more positives,
a lot less weakness

1. For the first time, open ended mentions of Clinton
personal positives equal mentions of personal
negatives (33 positive vs 35 negative)

a. In the past, it ran 21 positive vs 43 negative

b. major positive mentions:

cares/compassionate 7%
honest/integrity 7%
strong leader 6%
tries hard 6%

others 3% or more: energetic/active, doing
better, appearance, adaptable/compromises,
fairness, intelligent

2. Weakness mentions down from 33% to 25%

3. Personal Clinton positives now equal issue positives
in open endeds 33% personal vs 36% issue

a. in the past, a 3-1 ratio of issue vs personal
positives

4. In ratings, about a 10 point improvement among Dems and Inds.

- a. strong leader: up 8 among Inds
- b. takes clear stands, up 8 among Inds
- c. In touch with my values: up 9 among Inds
- d. effective: up 6 among Inds

C. Popularity of Peacekeeping Theme

1. by 48-27 people agree Clinton is a "peacemaker in the world"
2. Given three way choice, people want a peacemaker not a policeman or an isolationist

choices:

37%--we should keep troops at home and pay more attention to our own problems

44%- cant be global policeman, but can do a lot to stop wars and save lives. need to do all we can without putting troops at excessive risk or straining our resources

14%-- moral duty to fight injustice and oppression in world and not hesitate to intervene even if troops get in harms way

3. Should stress Peacemaker theme as middle way on post cold war foreign policy in post Paris speech

D. Little Change on Budget

1. slight drop in perception that we are cooperating
from 50 to 44%
 - a. but shut down was still Republican's fault 48-29
2. slight increase in perception of bickering, not issues
bickering up from 50 to 55%, important issues
down from 46% to 40%
 - a. emphasize issues in free media and go back on the
air with ads

**II. OVERALL STRATEGY -- BUDGET DEAL ESSENTIAL TO
ADEQUATE VICTORY MARGIN**

A. Partisan divide in America is basically 40-20-40

1. more or less the Clinton-Perot-Bush vote
2. even now, 40% say they will
definitely-probably-possibly vote against Clinton

B. We are currently at roughly 60% approval / 50% vote share

**C. We are unlikely to be able to improve those numbers much
in the normal course of events**

1. We haven't moved beyond these ratings in six weeks
2. Polling predicts these numbers without a budget deal

D. At a 60% approval, we cannot do better, consistently, than 50% vote share

- 1. How can we count on getting more than 83% vote share among approvals? We can't**
- 2. But at a 50% vote share, we are locked in a tie race**
- 3. Remember -- Incumbent always loses undecideds**

a. Gallup analysis of undecided distribution:

1956	Stevenson: 3	Eisenhower: 0
1964:	Goldwater 7	Johnson: 0
1972	McGovern 3	Nixon: 0
1976	Carter: 4	Ford: 1
1980	Reagan 2	Carter 0
1984	Mondale: 2	Reagan: 2
1992	Perot/Cint 5	Bush 1
TOTAL CHALLENG: 26		INCUMB: 4

E. What is standing in our way of passing 60/50?

- 1. Perception of weakness acts as a drag**
- 2. Huge partisan divide acts as a ceiling**

F. First step -- overcoming weakness-drag -- well on the way to getting done

G. Second step -- blowing off the partisan cap

- 1. Budget deal is essential for this**
- 2. Without a national consensus like we had in 1984, incumbent cannot be re-elected by large enough margin to breathe easily**
- 3. Unless national consensus is reached on balanced budget, tax cuts, and welfare reform, we are capped at 60/50...and a tough race**

C. We need to do the following to claim victory --

- 1. Absolutely no additional cuts in medicare. Purity is very important here. Probably cannot even do upper income premiums.**
- 2. Education and environment are also very important, although less than medicare -- we have advertised them less**

a. whether we met these commitments will always be a matter of opinion --

- 1. How do you define education? Does it include training in Labor Dept, etc.**
- 2. Is the NDD settlement enough to protect education and environment in out years?**
 - a. how realistic are cuts in other areas? are they so drastic that we can't sustain them and will have to cut education even if we don't want to?**

b. therefore: we need --

- 1. victories on riders**
- 2. ratification from education and environment groups**
- 3. lots of ads to sell that we protected ed and environment**

3. Medicaid -- not a stated priority in ads, but important

1. entitlements has become symbolic issue
a. we need to keep the medicaid entitlement

2. purity on medicaid makes it possible for Dems to back larger tax cut which Republicans need

4. Welfare -- can't take additional cuts below our current 7 year plan because of kids in poverty report

D. To achieve priorities, we basically need:

Medicare 146 over Republican budget
Medicaid 109 over Rep. budget
NDD 100 over Rep budget
Welfare 58 over Rep budget
TOTAL \$413

E. We might be able to get it from:

40- CPI higher than our 7 year plan (70 total)
45- cuts in their tax cut
20- higher corporate welfare than our 7 plan (50 total)
25- transfer of money from health reform line in our 7 plan

140 - subtotal

needed from additional assumptions: \$273

F. How to get additional assumptions

1. initial increase of 70-100 next week
2. subsequent increase of 30-40 in medical inflation after OMB-CBO consultation
3. final increase of 150 in consideration of final deal anchored by lookback with super majority

7

then: 52-34

53-33

54-33

vs. Buchanan: 56-32

D. Vast opportunity -- to develop a condominium on the low
50s while Republicans are in disarray

Feh 22
196

E. Danger -- That while everybody is talking "Republican",
Clinton is nowhere to be seen and we are not
exploiting their negatives to build our strength

II. Ad Presentation -- Squier and Knapp

II. NEED FOR BUDGET/WELFARE DEAL

A. Regression analysis shows that rating of effectiveness
is the single biggest factor in driving increase in vote

1. second place is values, third place is strength

B. Biggest issue in driving vote is to balance the budget fairly

1. second place is health care and crime

C. Obstacles to Deal are very, very limited:

1. Medicare:

- a. we can go with \$100,000 premium increase**
- b. we can go with larger provider cuts**
- c. by giving Republicans a higher gross cut relative to our a smaller net cut we can bridge the gap in expectations**

2. Medicaid

a. Assured Package of Benefits

- 1. voters agree with Governor control vs. federal say by 49-40**
- 2. possible compromise: specification of minimum benefits in bill, just as minimum population coverage is specified**

b. Judicial Review: state vs federal

- 1. voters back state courts over federal by 67-31**
- 2. with 11 lawsuits all last year, this is hardly a key issue**
- 3. compromise: federal review after state court remedies are exhausted**

c. Obviously, we need to roll back the provider tax kickback in the Governors' plan

**d. Voters do want expansion of coverage to teens
by 63-30**

1. full expansion to 18 would cost \$6 billion

**2. Possible compromise: expand to 15:
\$3 billion**

**e. formula -- obviously, we have to pin down costs
and address the vagueness**

3. Food Stamps

a. entitlement

**1. votes back block grants over entitlement
by: 61-31**

**2. possible compromise: block grant until
trigger of state or national unemploy-
ment is reached. Then entitlement**

a. public backs this by 60-33

**b. if you set the trigger low enough,
you could, in effect, keep
entitlement by providing
the trigger would kick in when the
food stamp needs exceeded the
block grant amount**

**c. if you kept it high enough, it wouldn't
trigger a new CBO scoring**

b. cuts: public wants fewer cuts

1. given choice of cut levels:

- a. cut \$22 billion: 46%
- cut \$25 billion: 16%
- cut \$20 billion: 20%

2. but, that is just comparative. Probably could live with \$25 billion in Senate version

c. Immigrants - SSI

1. public breaks even on food stamps to "families of legal immigrants who are not American citizens, but who are disabled and have children not born in America"

-- 47-48

2. possible compromise: food stamps for limited number of years during which they would either become citizens or lose benefits

4. Welfare

1. Entitlement

a. public backs block grants over entitlements by 63-29

2. Maintenance of Effort

a. public backs 80% maintenance requirement by 54-36; but would back 75% by 51-36

- b. big change from November when they
opposed maintenance of effort

III. ECONOMIC MESSAGE -- VALUES MORE IMPORTANT THAN
ECONOMICS; GROWTH IS KEY
ECONOMICS MESSAGE

---Mark Penn

A. Values does better than Economics as Message

- 1. Values v Economics (defined as wage stagnation, layoffs
insecurity)

-- 60-37

- 2. Values v Economics (defined as jobs and growth)

--55-42

B. We have Economics voters already and need values voters

- 1. Of economic driven voters:

Clinton: 57 Dole 27

- 2. Of values driven voters:

Clinton: 45 Dole 39

- 3. Swing voters are values driven

- 4. THEREFORE: stress values, but don't ignore
economics

C. Growth beats Addressing Income Gap

- 1. Voters back "stronger economic growth" over "closing
the gap between rich and poor" by 74-23

2. Voters back "faster economic growth and expanding educational opportunities" over "encouraging higher pay for lower-skilled people facing stagnating wages" by 71-24

3. Even voters who put economics over values favor growth as the answer by 70-29

4. Among voters who want growth: CI-45 Dole-41
who close income gap CI-66 Dole-17

a. go after marginal voter, not after base

5. THEREFORE: stress growth policies

D. Economic Optimism Remains Strong

1. No real fear of job loss:

a. very afraid: 8%,
somewhat afraid: 15

TOTAL AFRAID: 22%

TOTAL NOT AFRAID: 68%

2. Optimism about career

a. improve in 5 years: 52%
get worse: 11%
stay the same: 34%

3. Optimism about economic position:

a. improve: 46%
get worse: 16%
stay the same: 34%

4. Children better off:

- a. improve: 47%
- get worse: 26%
- stay the same: 20%

5. Economy to get better:

- a. improve: 37
- get worse: 26
- stay the same: 30%

6. pessimism creates Dole voters, optimism creates Clinton voters

7. THEREFORE: Stress optimism

E. Populist Proposals Work without arguments and then crash with arguments

1. Require companies that need fedl approval for merger to disclose layoffs and turn down permission based on impact on workers

support: 62
oppose: 31

- a. but after argument: "cause companies to reduce layoffs and protect jobs vs too much govt interference and promote inefficient companies"

support: 44
oppose: 49

**2. Require companies that layoff workers to
fund job training vouchers**

support: 55
oppose: 30

a. but with argumentation:

support: 43
oppose: 45

**3. differential tax rates based on layoffs, benefits, job
creation, profit sharing**

support: 74
oppose: 20

a. but with argumentation:

support: 52
oppose: 40

**4. THEREFORE: Jawbone corporate responsibility in
values language but avoid class
warfare rhetoric or specific proposals**

F. Avoid Fed Bashing

1. Should fed promote more growth 58-19

**2. Fed should continue avoiding inflation even if
less growth: 40%**

**Fed goes too far on fighting inflation and not
enough to promote growth: 50%**

3. No consensus for fed attack

**4. THEREFORE: stress growth through budget balancing,
tax cuts, educational enhancements, college
scholarships, but not as fed bashing.**

G. Trade Issues:

1. Voters Blame Clinton Trade Policies for Job Loss

Clinton trade policy cost jobs: 42%
gained jobs: 28%

2. But Clinton wins Argumentation on Trade:

a. Initial head to head in poll: 50-35

b. After positive trade arguments:

open foreign markets
invoke sanctions when needed,
have raised exports by 1/3
make more cars than Japan
opened Japan markets,

CI- 62-27

c. After Dole attack:

Clinton ineffective
other countries take advantage
Mexico, Japan
cost US jobs
need to be tougher than Clinton

CI- 49-42

d. THEREFORE: trade is a loser for us, but must be defended vigorously to stop it from hurting very badly. With aggressive argument, we can nullify damage.

head to head is likely to be your final one
- use opposition to bite size agenda to beat him
- get a deal so that he has nothing to say
- don't hand him back the only agenda he can have
by a deal

ONLY SURE WAY TO WIN IS TO GET A DEAL

1. Alexander falls, Dole wins
2. Dole has no message left

RECOVERY-

Jan 29 46-50

Feb 4 47-45

Feb 11 47-48

APPROACHING HEALTH-

Feb 21 50-42

March 5 50-41

E. Who will win Rep Nomination (pre-Tues.)

Dole 75 Buch-10 Forbes-6

1. Dole isn't spending much. Only \$57,000 in NYS
and only \$75,000 in Texas and \$104,000 in
Fla

2. Forbes isn't either Only \$670,000 in NYS
requested avails in Fla and Cal, but
no buy yet there or anywhere else

3. Buchanan canceled buy in Texas

F. We are losing edge on the budget:

Unaided: Our plan vs Republicans

	Clinton	Republicans
Feb 4	50	35
Feb 11	51	37
Feb 21	49	37
Feb 28	48	40
March 5	45	41

C. So we should publicly invite Dole and Gingrich to the White House the day after super Tuesday to negotiate a budget deal

- 1. marathon negotiations -- high profile**
- 2. Between Gingrich's desire for a deal and the momentum of the talks, put Dole in an impossible position**
 - a. he can't be seen as the stopper or killer of a deal because he has to run with the blame**
 - b. deprives him of his leadership/effective ratings**
 - c. takes away his only issue: balanced budget**
 - d. If talks break down or explode, we can win blame game**

D. We are slipping in balanced budget ratings, we need public affirmation to regain upper hand

IV.. Media Doctrine -- Squier and Morris

A. Republicans believe in negatives mainly

- 1. they see positives as "pretty pictures and music"**
- 2. they see rebuttals as a "getting off message"**

B. We believe in dialogue

- 1. We see positives as key to winning race**
- 2. We see rebuttal and counterpunching -- dialogue -- as way to nail a race down**

March 6, '96

V. HANDLING REPUBLICAN ATTACKS ON CLINTON

A. RNC offensive will now come very soon -- DNC fund raising is not now equipped to cope with the money needs

1. We have had trouble getting this week's DNC money together

a. this week we needed \$564,000 and got it two days late

March 19	\$1,281,000
March 26	1,234,000
April 2	1,234,000
April 9	1,175,000
April 16	1,175,000
April 23	1,337,000
April 30	1,299,000
May 7	1,252,000
May 14	1,252,000
May 21	1,262,000
May 28	1,300,000

TOTAL DNC AFTER THIS WEEK: \$14,747,000

2. Fund raising at DNC level must be improved

a. Republicans will have vast capacity to throw negatives and we must have money to respond

b. needs to have priority in scheduling

B. Testing Impact of Negatives on Clinton

- 1. Recommend Mall tests where we play Dole anti-Clinton ads and test rebuttal needs**
 - a. do we ignore and run positives
 - b. do we ignore and run negatives
 - c. do we rebut?
 - d. do we rebut and tell of positive achievements?
 - e. do we rebut and tell of positive issues?
 - f. do we rebut and tell of Dole negatives
 - g. do we rebut and tell of achievements and issues?
 - h. do we rebut and decry negative campaigning
- 2. Request Mall test of 8 combinations of negatives and responses**
- 3. Presentation of Dole actual positive and possible negative ads for mall testing -- Squier, Knapp**

VI. DOLE NEGATIVES -- Doug Schoen

- A. We revisited Dole negatives, as requested by President, to reflect thematic negatives without specifics that cross cut in different directions**
 - 1. We found that anti-family negatives worked when used in this context**
 - 2. caveat: we asked Clinton positives before asking Dole negatives. That likely bumped up the Clinton vote from the 53% baseline to the 57-58% range most achievements scored.**

B. Ranking of Dole Negatives

1. Best: family issues

(Dole not pro family, anti-student loan, tax increase on 8 million working families earning less than \$30,000, anti-family leave)

moves head to head to 59-31

4. Fourth: No New Ideas

c. moves head to head to 56-38

PRIVATE AGENDA FOR PRESIDENT ONLY

I. BUDGET

A. take vigorous, personal lead in direct talks with Gingrich

**B. Play out public invitation to marathon negotiations with
Gingrich in private**

- 1. he doesn't want Dole elected, he wants to run in 2000**
- 2. He needs a deal, he thinks, to ratify his speakership**
- 3. work out substantive details with Gingrich in advance**
- 4. catch Dole in squeeze play**

**C. Deal details -- this is not a bargaining position, it is rather
where I think you can go politically in the final deal**

1. Medicare

**a. MSA compromise keyed to national quota on
enrollment and annual adjustment of
capitation fee based on risk experience**

- 1. sell to Gingrich as annual increases in
enrollment caps leading to full
national availability**
- 2. sell to liberals because it allows only
limited damage each year**
- 3. sell to liberals because it allows reduction
in capitation fee to reflect cherry picking**

b. Balance billing -- hold firm against it

c. Premium Overcharge

1. we should allow private plans to keep profits if they provide lower cost services
2. we should not allow higher premiums for basic benefit package
3. we should allow private plans to charge higher premiums for supplemental benefits — like drugs — without limitation. Market can control

d. Recruitment and Enrollment for Private Plans

1. we could allow aggressive recruiting, but provide for annual review to monitor cherry picking. Also insist on available to all recruitment as we do FEHBP.

e. Medigap

1. we want to improve on current law to allow people to re-enter medigap market if their experiment with MSAs fails and they want to re-enter fee for service and buy medigap
2. Republicans worry that these people will be very sick and will drive up medigap costs and bankrupt insurance companies
 - a. we can allow medigap premium increases, but limit them or create re-insurance high risk pool to absorb them

f. Can go up to mid 140s net savings

1: but may need to open lower in bargaining

2. 10 from premiums over \$100,000

3. 10 from provider cuts

a. lower the rate we pay managed care plans

b. move hospitals up to minus 2 pts (we are now at minus 1.5, going up to 2 saves 7 bil. (market basket minus 2)

c. in out years, cut physician fees slightly physicians would buy it because they like single conversion factor Republicans had deeper cuts than we did and physicians bought it.

2. Medicaid

a. Formula

1. by killing provider tax and raising matching levels back up to current levels, we cut the Governor's plan down to appropriate size since they will not want to come up with hard money matches for all the goodies they added in CBO will likely reflect this in its scoring

2. assure that there is no cap of enrollment index

b. eligibility

1. try to expand to teens up to 15 as compromise

a. Breaux Chaffee keeps up to 18

c. benefits

1. guarantee "adequate" benefits and have HHS oversee

d. enforcement

1. state courts for benefits
federal courts for eligibility

a. For each 0.1 percent lowering of growth cap, we get \$2.5 billion

3. Welfare

a. so if we need it, we can get entitlement

b. state-by-state and national triggers

c. acts like entitlement when triggers indicate block grants would run out

b. immigrants

1. Republicans cut 23 bil, we cut 6 by deeming

a. cut 4 bil extra by extending deeming to Medicaid and over 75 year olds

b. add diaper voucher for legal immigrant disabled with kids.

1. Republicans will get adult cuts

2. we will get kids being covered

3. probably 3-5 bil in cuts, bringing total to 13-15 -- halfway between 6 and 23

c. child protection – kill block granting

d. savings

1. Republicans at 64, we are at 40. Govs are at 43 (minus 23 in immigrant cuts on which they take no position= 20)

a. we can add back to the Gov's 20:

1. 3-4 bil from matching requirement so gov's don't use all goodies

2. 10 by deeming on SSI, Medicaid

3. 3-5 by cutting adults on legal immigrant SSI

4. 3-5 bil by counting \$500 per child tax credit in EITC income calculation

II. IRAN

A. urge tough action on Iran.

1. we need foreign toughness so we don't take too much heat for being reasonable on Russia and China

B. Suggest oil embargo

1. Iran produces 3 million barrels per day

a. 1.5 increase is expected from non-OPEC sources

AGENDA FOR MEETING WITH PRESIDENT ON APRIL 1

(DISCLAIMER: Nothing in this memo is intended to be construed as a celebration of the rites of April 1st)

I GOALS OF THE PRE-CONVENTION PERIODS- TO COMPARE AND CONTRAST CLINTON VS. DOLE

A) Voters Have Seen an extensive, updated view of Clinton in 1995-1996.

- 1) Values Orientation
- 2) Decisiveness- No Flip-Flops
- 3) Sure hand in foreign Policy
- 4) Upbeat, optimistic assessment of economy
- 5) Centrist positioning on welfare, tax cut, balanced budget, crime
- 6) Pro-Values Differences with extreme Republican initiative in these areas.

B) But Clinton Still falls far short of perfection- especially when measured against their high hopes of 1992

1) Current Poll Data:

1. in touch with my values 39-39
2. does things because they are right 39-35
3. strong leader 36-33
4. effective 29-33
5. Ratings are no better than OK, and certainly don't reflect a 52% vote share

2) However, when measured against Dole, Clinton's ratings acquire a new buoyancy:

Dole- Time tested, mature/ Clinton- young, immature
True- 28% Not true -51%

Dole- Strong, decisive leader/ Clinton- weak and flip-flops
True- 30% Not true- 52%

Dole- Practical and down to earth/ Clinton- too abstract
True- 26% Not true- 52%

Dole- Doer/ Clinton- Just a talker
True- 21 Not true- 51%

Impact of above on head to head: NONE

C) The Mission: To contrast Clinton and Dole

**1) Dole: To express Clinton's achievement, positioning and personal skills
in the context of Dole's weakness'**

**a) Economy- contrast 91-91 recession with current
prosperity**

**1) Show Dole's absence of economic
program in 91 when the country
needed it.**

**b) Achievements: Stress how Dole opposed Clinton's
achievements**

**1) Student loans, immunizations, family
leave, Brady Bill**

**c) Positioning on Budget: Express how Dole tried to
destroy America's values by
extremism in budget debate:**

**270B in Medicare cuts
Medicare premium increase
Entitlement for Medicaid children
Nursing homes
Head start
College scholarships**

Federal help for schools
Environmental policies
EPA enforcement
Toxic waste
Tax cut for working families
Tuition deductibility

d) Advocacy: Contrast Clinton and Dole differences over ongoing issues:

V-Chip
Federal role in education and education standards
Tobacco/smoking
Minimum wage
domestic violence
100,000 cops
Campaign finance reform,

D) Overall Conclusions:

1) To show Dole's inadequacies:

- a) Dole lacks generational perspective to embrace new era.
- b) Dole is too much of a worn-out insider to seek dynamic change.
- c) Dole is too much of a Washington figure to understand real values issues.
- d) Dole embraces Republican passivity and inaction in the face of economic difficulty.

2) To show that Clinton has the right vision for America

- a) Clinton is generationally suited for a new look at America's problems at turn of the century.
- b) Clinton is an active, energetic proponent of new ideas.
- c) Clinton embraces the values of America as it copes with change
- d) Clinton actively and vigorously seeks to foster economic growth

E) Paid Media Implementation of These Themes.

- 1) Respond to Dole attacks with contrast between them which underscores and elaborates this agenda.
- 2) To show visual contrast between them by constant video juxtaposition.
- 3) To elaborate Clinton's achievements and positions through this dialogue and to lend them relevance and saliency by contrasting them with Dole's opposition.

F) Free Media Implementation of Above Strategy- Presidential

- 1) Continue positive exposition and elaboration of the State of Union agenda into our basic message:

Tobacco,
education standards
television violence
teen gangs,
going to college,
corporate responsibility
pension reform
health care portability
job training vouchers
responsible parenting,
criminal sentencing,
anti-terrorism
domestic and spousal abuse
education technology,
environmental protection
school uniforms...

- 2) To highlight economic optimism and current economic growth
- 3) To accomplish closure on conservative themes of budget balancing, tax cuts, welfare reform, crime, immigration reform.
- 4) To highlight international role as peacekeeper and statesman
- 5) The goal of Presidential free media activity is not and should not be to raise Dole's negatives.

G) Free Media Implementation of Above Strategy-- Non-Presidential

- 1) To interfere with the elaboration of Dole's message with tactical hits as opportunities arise
- 2) To use the Senate Floor to show Dole's lack of leadership and inability to be an effective President.
- 3) Force Dole into a position which exemplify the issues outlined above.
- 4) To distract Dole and break his momentum by tactical intervention in his campaign and in his legislative leadership.

H) Summary: (What do we want people to remember about Clinton and Dole)

- 1) Dole is too old, stuck in another era, but Clinton is current and with it.

Single word translation- Generational

- 2) Dole is too tired and mired in the status quo to permit him to seek change. Clinton is active, energetic and committed to change.

Single word translation- Status Quo

- 3) Dole is a Washington insider who does not get the fundamental values of America. Clinton is embracing those values in his program and politics.

Single word translation-Values

- 4) Dole is committed to passive economic policy while Clinton dynamically seeks growth.

Single word translation -Growth

I) RECAP; Generation, Status Quo, Values and Growth

II TARGETING -- HOW TO IDENTIFY THE FIVE MILLION AMERICANS WHO HOLD THE ELECTION IN THEIR HANDS - MARK PENN

A. In the past, there has been virtually no successful targeting of swing voters

1. Swing voters is too big a category -- it embraces tens of millions of Americans -- to be useful

2. Standard election statistical analysis offers case models too unique to be of importance and only targets precincts, not voters

B. Now, we are developing the capacity to target the actual households which are the swing voters, in the swing markets, in the swing states to control the election if the race were to be a 52-48 or 48-52 race.

C. Methodology for targeting:

1. Already done:

- a. geographic/demographic targeting
- b. lifestyle targeting
- c. past electoral history
- d. current polling data

1. too small a sample for truly state by state or market by market polling

2. Next Step

a. New Polling : 10,000 interview poll in 20-25 key states

1. gives us statistical power to understand who is swing voter

2. Permits planning for Perot factor

3. Prioritize each state market and community type

- a. for Presidential events
- b. for surrogate events
- c. for organizing
- d. for time buying

4. Permits us to understand which of the 64 lifestyle clusters we need to target

- a. allows us to identify the key lifestyle variants that identify a swing voter

5. Permits geographic targeting of paid media messages based on this analysis of which Dole attacks will hurt where and of which Clinton ads will work where

a. permits multitrack paid media

3. Then --

a. determine where, in the zip plus four geographic analysis these voters who are identified by lifestyle clusters live

b. factor in:

1. electoral data
2. demographics
3. state by state polling
4. breakouts from our own 10,000 sample poll
5. where we are advertising and where they are

c. We determine, at each level of the vote, who the swing the voters are, name by name and address by address

1. At a 52-48 race, they are different than at a 55-45 race

2. They will vary depending on Perot's candidacy and how it does

3. But the targeting model can adapt to these variations as they occur before field resources are actually committed

4. Final Application

1. Once families are identified, a heavily focused phone and mail hit becomes possible.

2. If we identify 5 million families -- 8 million voters -- 4% of electorate

a. We can mail and phone them at reasonable costs with incredible frequency

1. 5 mailers and 3 phone calls would cost about \$15 million

2. Can concentrate these in the last two weeks so they get a Clinton hit almost every day

b. Can adjust targeting until about 3 weeks out to adjust to moving electoral conditions

3. We can identify where Presidential time needs to go in states where we are in trouble

4. We can weight time buys

5. We can shift messages with great precision to hit targets

III LEGISLATIVE HITS ON DOLE

A. Terrorism Bill (items cut by House Republicans)

1. prohibit fund raising by terrorists, (Hamas)

2. deport aliens faster

3. tagents for bomb tracing

4. cop killer bullet study

B. Anti Militia Bill

1. prohibit intimidation of local govt officials (i.e. Montana)

AGENDA FOR MEETING WITH THE PRESIDENT ON APRIL 24

I. TRACKING -- NO CHANGE SINCE TWO WEEKS AGO, BUT NOW REAL
JOB APPROVAL GROWTH INTO 60s

A. Head to head still at 51-37

B. Job approval still at 61-38

1. second in a row, likely lasting change

2. room for growth now in head to head

C. Favorability at 60-38

1. now also in the 60s, hopefully to stay -- second week

D. Dole favorable at 49-44 (2 weeks ago at 49-44 also)

E. Hillary at 49-42 (last week at 47-43)

F. Three way at 46-34-11 with Perot

G. Perot favorability at 32-58

H. Budget tracking:

1. who is more to blame for failure to reach a balanced budget, tax reform
and welfare agreement this year?

Clinton 33 v Republicans 50

Clinton 33 v Dole 41

2. Suppose Dole says it is time to stop negotiating and get a balanced
budget done. He says he has the votes to pass a new version
of the budget with fewer cuts in Medicare than before and the
Republicans should pass it and put a new balanced budget on
Clinton's desk to sign or veto

agree 59 disagree 35

vote: Cl 47 Dole 43

7/24/96

3. Supporters of Clinton say that if Dole really wants a balanced budget, not just political posturing, he will finish the negotiating with Clinton. Dole knows that the issues are so important that only a budget carefully reviewed and agreed to by both sides will be passed and signed. Dole should negotiate if he really wants to achieve a balanced budget, not just go back to the Republican tactics of 1995.

agree 74 disagree 21

vote: Cl 56 Dole 36

4. Analysis: If he projects his line before we can get our line out, he can acquire permanent advantage. We must press our line of negotiations before he can get his line of unilateral action out to the public.

5. Steps to take:

1. Friday: Challenge Dole to come in and talk
And say we will meet with Congress to put together an agreement.
2. Next week: meet with Breaux-Chaffee
meet with Stenholm-Sabo

always calling on Dole to talk
3. The week after: through out individual areas where we can find agreement:

capital gains for tuition tax credit
we will explore other areas to propose later
4. Finally, release our proposed compromise as we released our seven year budget plan

II. AD CAMPAIGN

- A. Crime ad now on where unopposed. Tax answer on where opposed

2. Welfare:

92: end welfare as we know it

93-4 EITC

95-6 37 state waivers

Second term: finish welfare reform; empowerment zone job creation

strong agree: 38

some agree: 41

total agree: 79

3. Taxes

92: middle class tax cut

93-4: EITC

95-6: fought for tuition tax deductions, tax credit for each child

second term: get the program passed

strong agree: 50

some agree: 33

total agree: 83

4. Deficit

92 campaign: pledged a cut

93-4: cut deficit

95-6 now cut in half

second term: balance the budget

strong agree: 36

some agree: 33

total agree: 69

5. economy

campaign: focus like a laser

93-4: cut deficit, opened markets

95-6: 8.4 million jobs

second term: go to college, job training vouchers

strong agree: 33

some agree: 36

total agree: 69

6. crime

92 campaign: fight crime promise

93-4: Brady Bill, assault rifles, 100M cops

95-6: get cops hired, terrorism

second term: get federal sentencing requirements adopted by states
so felons serve 85% of sentences

strong agree: 53

some agree: 29

IV. CHARACTER ISSUE --- ACQUIRING IMMUNITY BASED ON PUBLIC LEADERSHIP ON VALUES ISSUES

A. Our agenda of public values issues has become a highly effective response to attacks on the President's character

1. people increasingly see the President's public values agenda as a more relevant indicator of his character than the allegations of personal prior conduct

2. Even when subjected to a harsh set of attacks, the public values agenda beats them back

VI. GENERATIONAL THEME -- THE BASIC STORY WE HAVE TO TELL

A. We tested two story lines on generational issues.

1. Clinton vs Clinton --

Clinton is the first of a new generation to hold the Presidency. He was young and inexperienced at the start but now he really understands how to govern and has become a solid leader who will be even better in the second term

vs

He is typical of young people who lack discipline, character, and maturity. He doesn't understand or respect how the older generation worked to make the country what it is and we need to bring back leadership that understands the old ways and has greater maturity and understanding

Good Clinton -59 Bad Clinton: 36

2. Clinton vs Dole

Clinton is the first of a new generation to hold the Presidency. He was young and inexperienced at the start but now he really understands how to govern and has fresh ideas. Dole represents the older generation trying to take back power just as the younger generation is coming into its own and doing a better job. It would be wrong to let Dole turn back the clock on America's leadership and its new direction

vs

He is typical of young people who lack discipline, character, and maturity. He doesn't understand or respect how the older generation like Bob Dole, worked to make this country what it is. We need to bring back leaders who understand that our old values are still useful and give people like Bob Dole. who understand those values, one more turn to lead us in the right direction

Clinton: 56 Dole 37
